1. **Introduction**

1.1 This Local Development Scheme (LDS) sets out Slough Borough Council’s timetable for producing planning policy documents.

1.2 Local planning authorities are required to produce a Local Development Scheme under Section 15 of the Planning and Compulsory Purchase Act 2004, as amended by part 111 of the Localism Act 2011.

1.3 The LDS should state:

   (a) the local development documents that will be produced;
   (b) the subject matter and geographical area to which each document is to relate;
   (c) which documents are to have ‘development plan’ status;
   (d) which documents (if any) are to be prepared jointly with one or more other local planning authorities;
   (e) any matter or area where there is, or is likely to be, a joint committee;
   (f) the timetable for the preparation and revision of the documents

1.4 The Local Development Scheme will be available on the Council website www.slough.gov.uk/localplan and be updated where necessary.

2. **Background**

2.1 Slough has a current Core Strategy adopted in December 2008; Site Allocations adopted in 2010 and saved policies from the Local Plan 2004. There are also saved policies from the Minerals and Waste Plans. These will remain the statutory Development Plan until the new Local Plan reaches adoption.

2.2 Councils are required to prepare a Statement of Community Involvement (SCI). The Council prepared a draft SCI which was consulted on alongside the Issues and Options document in February 2017.

2.3 The Local Plan will be accompanied by other planning documents which are not required to be included within this LDS. These include:

   - Annual Monitoring Report (AMR)
   - Sustainability Appraisal (SA)
   - Other supporting documents

2.4 For information purposes we also have a Residential Extensions Supplementary Planning Document (SPD) which was adopted in January.
2010. Also we have Developers Guide which is supplementary planning guidance but not formal SPD.

3 New Local Plan

3.1 In December 2015 the Council carried out a Regulation 18 consultation on the scope of the local plan. This explained that Council is proposing to prepare a single Local Plan Document to fully replace the existing Core Strategy DPD, & Site Allocations DPD and saved policies from the 2004 Local Plan. The Slough Local Plan will not cover Minerals and Waste but the need for these will be kept under review.

3.2 Slough’s Issue and Options document was subject to a six weeks consultation on 16th January to 27th February 2017. The most significant outcome of the consultation on the Issues and Options Document has shown that there are no reasonable spatial options, or combination of options that would allow Slough to meet all of its identified housing and employment needs within its boundaries.

3.3 The development of the “emerging” Spatial Strategy took account of the results of the public consultation on the Issues and Options report, the identified spatial development principles and available evidence. It also took account of the major uncertainties which are facing Slough, such as the future of Heathrow Airport and the fact that there is no reasonable option which would allow all of the assessed housing and employment land needs to be met within the Borough boundaries.

3.4 The “emerging” Preferred Spatial Strategy for the Local Plan for Slough was reported to the Planning Committee meeting on 1st November 2017 when it was approved subject to further testing and consideration.

The emerging Preferred Spatial Strategy sets out following five elements:

- Delivering major comprehensive redevelopment within the “Centre of Slough”;
- Selecting other key locations for appropriate development;
- Protecting the built and natural environment of Slough including the suburbs;
- Accommodating the proposed third runway at Heathrow and mitigating the impact;
- Promoting the northern expansion of Slough in the form of a “Garden Suburb”;

3.5 A update report went to Planning Committee on the 21st February 2018 which identified the Strategic housing sites that will be needed to implement the Spatial Strategy and an interim Sustainability Appraisal of the emerging Preferred Spatial Strategy.

3.6 The current Local Plan work streams include:
3.7 Following the publication of the Airports National Policy Statement by the Secretary of State for Transport in June 2018 we have been working on how we can accommodate the proposed growth at Heathrow. We have produced an Emerging Spatial Strategy for Colnbrook and Poyle which sets out our planning principles for the development of the area, if the proposed third runway at Heathrow goes ahead. This will feed into the forthcoming consultation on the proposed third runway which will be carried out by Heathrow Airport.

3.8 Work on the Centre of Slough Strategy has commenced. This will establish the framework for promoting the comprehensive regeneration of the centre, including the redevelopment of the shopping centres.

3.9 A draft plan for the Slough Northern Extension in the form of a “Garden Suburb” was produced by Atkins in September 2017 and is available on our website.

3.10 A Wider Area Growth study is being prepared in conjunction with the Royal Borough of Windsor & Maidenhead, South Bucks District Council and Chiltern District Council. Part 1 of the Study, which looks at the area of search for meeting unmet housing needs which was produced by PBA has been published as draft. Part 2 of the Study will be completed towards the end of the year. This will assess the development needs and potential unmet needs within this Study area and generate a series of strategic spatial options, test these options, and make recommendations for consideration in relevant Local Plans.

4 The Local Plan Timetable

4.7 The Review of the Local Plan for Slough will set out the Council’s vision and objectives for the area and include all policies and allocations.

4.8 An indicative timetable, including the key milestones, is set out in the table below:

<table>
<thead>
<tr>
<th>Document: Slough Local Plan</th>
<th>The Local Plan will set out the Council’s vision, objectives and detailed polices and allocations for future development of the Borough. This will include the level of development and location of development required.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Timescale</td>
<td>2016-2036</td>
</tr>
<tr>
<td>Coverage</td>
<td>Whole Borough</td>
</tr>
<tr>
<td>Status</td>
<td>Local Plan Document</td>
</tr>
<tr>
<td>Reason</td>
<td>The adopted Core Strategy &amp; Policies DPD is not considered entirely up to date and need to review of the planning policies.</td>
</tr>
</tbody>
</table>
The new Local Plan will need to be consistent with the NPPF.

Work will be undertaken by the Planning Policy Team.

Member Task and Finish Group, Member workshops, Planning Committee and Cabinet. Full Council for Submission & Adoption only.

Production costs and consultation, Inquiry.

Evidence Base preparation: 2015 ongoing
Call for Sites consultation: January 2016
Issue and Options Consultation: January 2017
Preferred Options Consultation: February 2020
Publication: Summer 2021
Submission to the Secretary of State: Winter 2021
Independent examination: Spring 2022
Receipt of binding report: Summer 2022
Adoption: Summer 2022

5 Community involvement

Early engagement and public consultation will be carried out at the Preferred Options and publication stages. These will be carried out in accordance with the Council’s Statement of Community Involvement.

6 Review

Progress on the delivery of the Local Plan, allocated sites and the effectiveness of policies will be assessed and reported through the Councils’ Annual Monitoring Report (AMR).

The Town and Country Planning (Local Planning) (England) (Amendment) Regulations 2017 have introduced (as of 6th April 2018) a requirement to review Local Plans within five years of the adoption of the last local plan.

7 External Factors

The key external factor which affects the preparation of the Local Plan for Slough is the proposal for the third runway at Heathrow airport which would be partly built in Slough Borough. This could have major implications for Slough since it could result in major development in the eastern part of the borough and affect the overall strategy for the Borough. The Local Plan supports the third runway and is
promoting the development that is necessary to support it. As a result we have been advised not to submit it until after the Development Consent Order (DCO) for the third runway has been determined. This is because we will want to avoid the Local Plan examination being taken over by objectors to the third runway which would be an unnecessary waste of time and resources.

7.2 The Secretary of State’s decision on the third runway Development Consent Order is not expected until summer 2021. If DCO is approved then we will consult on the publication of the Local Plan in summer 2021. Then submit to the Secretary of State in winter 2012. The Local Plan examination is expected in spring 2022 and adoption in summer 2022.

7.3 The other major external factor which affects the Local Plan is the Joint Wider Area Growth Study. Progress on this is not, however, critical for the timetable for the Local Plan.

8 Resources

8.1 Much of the work to be undertaken on the Local Plan will be carried out using existing resources, in particular preparing policies and documents, carrying out sustainability appraisal will be carried out in house. The Scoping Report for the Sustainability Appraisal (SA) was prepared by consultants and the SA of the emerging Preferred Spatial Strategy was prepared in house. The subsequent stages of the SA will be prepared in house.

8.2 In the case of consultation exercises, these are usually managed in-house using existing planning policy staff. This may involve costs due to exhibitions, meetings and publication material. This is essential to ensure effective engagement with the community.

8.3 Some of evidence base documents such as the Strategic Housing Market Assessment (SHMA), Functional Economic Market Area (FEMA) and Economic Development Needs Assessment (EDNA) were produced by consultants and commissioned jointly with adjoining local authorities which has saved costs. Additional resources maybe needed when preparing the evidence base.

8.4 The significant financial costs are associated with the later stage of plan making. This include the Planning Inspectorate charges, administration support and room hire for example.

9 Risks

9.1 There are a number of potential risks in producing a document such as the Local Plan. These are considered below:

- Heathrow Third Runway: is the reason for the delay in producing a final version of the Local Plan as stated above.
• Duty to Cooperate: To respond to adjoining local authorities local plan consultations and negotiate cross boundary issues can cause delay to the programme of local plan production.

• Changing national planning system: The planning system has changed a lot in recent years and any changes could have implication for the local plan.

• Changing national policy: If a new policy is introduced at the national level can cause issues and delay if does not conform with the proposed local planning policy.
