This represents a decrease from 15.96% covering April 08 to April 09. The Slough Sport and Physical Activity Forum has developed an action plan (adopted by the Slough Active Team) to encourage wider participation across all age groups. Actions taken to date include: a successful bid for LPSA funding to increase gym membership, a targeted marketing campaign to increase frequency of use of sporting facilities and the promotion of free swimming for children and those aged 60 plus, the opening of the new Gym in the Slough Trading Estate together with Go Karting facilities. Actions and progress are monitored by the Health and Wellbeing PDG. 5 potential local measures are giving us a better understanding of local issues and are under review. These underpin a more robust action plan developed with support from IDeA.

Overall provisional performance for 2009/10 of 74.85% is a 4.75% improvement from previous years figure of 70.10. Performance is below the current target of 77% of young people will be in Full Time ETE at the end of their YOT intervention in 2009/10. Slough has been set an ambitious target of increasing the number of YP in FT ETE at the end of their intervention by a further 2% to 79% in the year 210/11 which would take it significantly above the current London (72.6%) and National (71.1%) average. Quarterly performance varied considerably due to the small cohort being measured and the impact one case can therefore have on a percentage based target.

This is inline with the national picture which declined by 6.6% and along with our statistical neighbours ranging from a decline of 4.5% to 10.1%. This places Slough in the 3rd quartile, ranked 98th nationally (out of 152 LAs) and 6th (out of 11) in our SN group. Performance is 9.7% below our 2009/10 target of 64.9%. Tellus is no longer being carried out so the results related to the emotional health of children are no longer available. The emotional health of children remains a high priority for the members of the Local Children's Partnership Board. Work on children and young people's emotional health is carried out through the local authority and BECHS. At a universal level schools are actively involved in promoting the social and emotional aspects of learning (SEAL). In the targeted domain, Local Authority services focus on individuals and groups of children identified as in need primarily by universal services. A wide range of services, projects and programmes are available related to the wide range of presenting needs. The Comprehensive Child and Adolescent Mental Health (CAMHS) Hub signposts and arranges support for those children with more complex mental health needs. This Hub has been very successful in keeping an increasing number of children in the targeted area rather than being escalated to specialist and acute services provided by Health.

Latest performance (end of January 2011) is at 73.4%. Although this is comfortably above the latest English and SN comparator figures, it is below our last March outturn value and some way below the LAA target set for this indicator of 80%.</p> <p>Corrective Action(s): Blitz days in place to help workers prioritise write ups. Training to be set up by ATM's to assist workers in concise assessment reports and analysis skills. Duty procedures currently being updated to provide tighter systems of work. Close monitoring of numbers of referrals. Regular auditing of re-referrals and IA's to ensure consistent thresholds for services</p> <p>Note: All IA visits are undertaken within statutory timescales. In light of national and comparator levels a more realistic target of 75% will be set and hope to achieve that over the coming year.</p>

Slough's 2010 performance of 71% has improved by 4% from the previous years result of 67%. These results were likely to have been higher however it excludes two of our high performing primary schools which boycotted the SAT's this year. 2010 performance is 3% below the England of 74% and 2% below the South East averages of 73%. Performance is also well below the 2009/10 target of 75%. Key Stage 2 results for 2010 show an improvement in performance for the first time in a number of years. However, this is not leading to complacency but new vigour in intensifying the focused action in this area. Increased emphasis is being placed by the Local Authority on effective leadership and management, teaching and learning, assessment and data analysis to inform teaching and strengthening governance. Activities include the improved use of tracking and target setting to assess pupil progress. There is also the judicious use of national programmes, 1 to 1 tuition and other intervention programmes used appropriately in schools, including modelling and the use of advanced skills teachers.

Slough LA's 2009/10 performance gap of 35.9% is a 1% improvement from the previous year's figure of 36.9%. However the gap is 3.2% wider than the 2010 national gap of 32.7% and placed 8th out of 11 in our Statistical Neighbours Group. Ranked 137th out of 152 LA's which places Slough in the bottom quartile. The gap is 1.7% wider than the 09/10 gap target of 34.2%. The Sure Start Service has increased its emphasis on supporting and driving achievement, particularly for those most vulnerable, in line with the new national focus. Early intervention with provision for two year olds is seen as a significant contribution to improvements in EYFS results in due course. More funding is being invested in contributing to the EYFS stage agenda and integrating this work with the broader school improvement work which is more focused on the statutory responsibilities around monitoring, challenge and intervention.

Key Stage indicators for looked after children have exceedingly small cohorts (e.g. SEVEN children for KS4, 2008/09) and are restricted to cover LAC who remain in care at the end of September following exam year. Our aim is to provide sufficient additional support on top of the teaching provided through the children's schools in order that each child makes personalised stretching attainment improvements. Targets are set in light of the current predictions of who will be in care in each year, though by the time the reporting period comes around there are additional children in care and others who have left care - so the targets can only be set in a non-predictive fashion. Huge uncertainties are attached to target setting at KS 4, since a significant proportion of this cohort will be recently arrived unaccompanied asylum seekers who are very unlikely to achieve the requisite GCSEs, particularly English. 08/09 Target was not met.

GOOD TO BE LOW: Slough's 2009/10 KS2 FSM gap figure of 21% has significantly improved in comparison with previous year's gap figure of 27.8%. This has resulted in Slough placed in the top quartile for most improved LA. These results were likely to improve further as they do not include two of our high performing primary schools with low percentage FSM that boycotted the tests. Slough's FSM gap is inline with this year's England gap and well below the South East gap figure of 26%. Ranked 50th nationally placing Slough in the second quartile and placed joint 6th out of 8 in our Statistical Neighbours group (3 of our statistical neighbours results have not been published). Slough achieved our LAA 2009/10 target of 21%. Slough's 2009/10 KS4 FSM gap figure of 35% is 1.5% wider than last year's gap figure of 33.5%. The FSM gap is also 7% wider than England's gap figure of 28% and 1% wider than South East's gap of 34%. Ranked 127th nationally placing Slough in the bottom quartile and placed 11th out of 11 in our Statistical Neighbours group. Slough is also 2% above our 2009/10 gap target of 33%. However improvements have been achieved by pupils with and without FSM at KS4. The results of KS4 pupils with no FSM improved by 4% whereas pupils with FSM improved by 2% which resulted in the FSM gap widening. As our four grammar schools have low percentage FSM this contributes to the high achievement of KS4 pupils with no FSM achieving 68%, ranking Slough 10th nationally compared with KS4 pupils with FSM achieving 33%, ranking Slough 41st nationally. Corrective action for NI 102b: Schools to provide targeted support to pupils identified with FSM.

This is based on YOT internal data which is likely to differ to national figures published later in the year. Recent work undertaken by the Partnership namely the introduction of YRD (Youth Restorative Disposals), in conjunction with effective use of the bail clinic system has seen a significant reduction in the number of young people receiving a reprimand or final warnings. The recent recruitment of a Triage worker in the YOT in line with the Youth Crime Action Plan will see the development of a system where young people who are subject of a YRD are provided with a short term intervention aimed at filtering them into diversionary activities and target Youth Support pending on needs identified through the assessment process. Partnership targeted youth activities, use of the YISP and parenting interventions have all supported success in this area.

The comparator data is not yet released however it's well below the 2009/10 England average of 6.4% and the second lowest rate within Berkshire. Performance is 0.6% above our current ambitious target of 4.3%. Due to the recession it has been a challenge to maintain a low rate however this has been achieved through the support programmes that we have embedded. Slough's NEET rate will be compared against our comparators once the published information is released.

This means an additional 202 clients in March to reach target. Current February position (caveat: based on last years' denominator of 4214) provides us with a performance of 25% of clients and carers on Direct Payments and personalised budgets. Based on a monthly average rate we may achieve an additional 96 users on a personalised budget and direct payment in March. Adding this to our latest February figure of 1063 users provides us with an end of year projection of 1159 which equals to 27.5% of total clients receiving community based services and carers, thus worst case we will be only 2.5% less than the 30% target.

At a performance of 796 carers' services (24.7%) we are just below our LAA target of 28% of carers receiving community based services which equates to approximately 900 carers' services. This means we need to complete a further 101 carers services in March. (We are close to achieving our LAA target of 28% but will fall short of our local target set outside the LAA process based on last years excellent performance of 32%). Actions to achieve target: <ul style="list-style-type: none"> Care managers are making a final push to ensure all outstanding carers reviews/services are scheduled and completed before the end of March. Team targets have been readjusted to improve performance. Individual team member quotas have been set based on team targets, and individual staff performance will be supervised and monitored at supervision to ensure compliance. Enhanced monitoring; team Managers are reviewing performance against team targets at each team meeting. In addition to the quotas set for every team member, specific team members have been identified as dedicated resources to undertake carers' assessments/reviews within the Community Social Work and Occupational Therapy Teams until team targets are back on track. Good practice tips and guidance on conducting carers' assessments/reviews have been amalgamated for use at team meetings and supervision. Refresher training is on-going to ensure staff complete carers assessments and services accurately on the IAS electronic case record system.
