Children Centre Charges

Most people pay the standard fee. Anyone living outside Slough pays the out of area fee. The only people who would get the income-related discount would be people who worked less than 16 hours per week and could not claim Childcare Tax Credit. At present there are no users in this position at any of the Centres.

Youth Centre Charges

These are the revised hire charges which are the rates for any new bookings of the centres, i.e. **this sets a base position which is effective from 2008-09 and are an increase of approx. 2.5% on the 2007/8 charges to users.** These are now aligned with rates for the community buildings and also meet the terms of the voluntary sector Compact that outlines the accommodation policy for the voluntary and charitable groups that are the main users of our buildings. This is in response to the previous position where rates were not regularly reviewed and set on an ad-hoc basis.
