

# Paper Petition Details

## Direction Change on College Avenue and Martin Road

During all the one way system discussions we were told the College Road and Martin Road will be swapped over in opposite directions for one way. Now when everyone believed into that you have restarted the consultation process, hence we believe people have not paid much attention to this latest consultation and have not taken it seriously.

We are therefore organising this petition to request you to carry out the swapping over of the one way of College Road and Martin Road to opposite directions to what they are currently. We believe this to be part of the original one way scheme.

We would be very grateful if you could please carry out this change as soon as possible.

### Council Response

Thank you for the petition received on 6<sup>th</sup> February 2013 which requested that the one way directions are changed on Martin Road and College Avenue in Chalvey.

Please accept my apologies for any confusion following the letter that I distributed to residents in October 2012 which just asked for any opinions on the proposed change to the one way systems in the above roads. As we discussed on the phone, I received a very small number of responses to that letter but all of them were very strongly against making the change. This was quite confusing from my perspective as I was under the impression that the residents wanted the one way directions swapped!

It was therefore very reassuring to receive your petition and I am now more confident that the change to the one way directions on Martin Road and College Avenue will be well received by the majority of residents in the area.

I have asked my colleagues in the Legal team to begin work on the Traffic Order which will change the directions so you won't see any changes on street immediately. As soon as the legal paperwork is in place, I will inform residents of the date when the one way directions will be swapped over. Signs and road markings will be changed accordingly and I hope to keep disruption to a minimum as everyone gets used to the new system.

Thank you once again for your patience in this matter. I hope to have the one way systems changed on Martin Road and College Avenue in the near future and I also hope this benefits the Chalvey community.
