The Assistant Director Finance & Audit reported that the finalising of Internal Audit reports had been closely monitored since March 2013 and only nine remained in draft, most of which had been very recently issued, and that this was a significant improvement on the previous position. Members were also informed that regular progress monitoring was taking place regarding the implementation of 'high' and 'medium' level recommendations to management and 75% had either been implemented (45%), part implemented (20%) or superseded (10%). The Assistant Director also drew Members attention to pages 10 and 11 of the report which set out the actions undertaken in response to the six recommendations in the Annual Governance report for 2011/12.

#### Internal Audit Annual Report 2012/13

The Head of Internal Audit introduced the Internal Audit Annual Report for the year to 31 March 2013. He stated that an unqualified (positive) opinion was presented overall, however the report described a number of specific weaknesses identified during the audits which had been referred to management. The Committee considered a number of issues relating to the internal audit process including the status of outstanding reports and the baseline used to measure the direction of travel. A Committee Member questioned officers on the statement in 5.1.2 of the report that there were

“...no major weaknesses within the Council’s internal control mechanisms” despite the fact the Internal Audit Annual Report had identified weaknesses in the Council’s procurement, contract management and risk management. Officers confirmed that no major weaknesses had been found but that the issues identified during the audits had been referred to management to be addressed. The Head of Internal Audit confirmed that he was satisfied that the identified weaknesses were reflected in the draft Annual Governance Statement which set out how the Council would address the issues picked up through the internal audit process.

The Assistant Director Finance & Audit introduced a report on the Annual Governance Statement 2012/13. Members were asked to approve the draft document and recommend it to Council in September 2013.

Members wanted to see the Statement present a balanced picture which gave assurance that the Council’s governance arrangements were sound, at the same time as highlighting the key issues identified by the internal audit process which needed to be improved. The Officer drew Members attention to pages 74-77 of the report which set out the main issues picked up in audits during 2012/13 for areas including procurement, contract monitoring, safeguarding (risk assessments) and the Asset Register, and stated the

proposed actions in 2013/14 to address the weaknesses identified. The Head of Internal Audit noted that the Internal Audit programme of work had focussed on the areas of known risk and areas of management concern, and that management had recognised the need for further improvements for example action-tracking and finalising Audit Reports more quickly.

After due consideration, the Committee agreed to approve the Annual Governance Statement and recommend it to Council in September 2013 along with the financial statements.

**Recommended –** That the Annual Governance Statement be approved.

### **5. External Audit Planning Letter 2013-14**

Mr Grant from the Council's external auditor, BDO (formerly PKF), introduced the External Audit Planning Letter for 2013-14 which set out the proposed fees, work and reports scheduled for 2013/14.

Members were informed that the proposed fee for Code audit work in 2013/14 was £168,960, which was both within the Audit Commission scale fee and a reduction on the current proposed fee for 2012/13 of £184,960. There was also a slight reduction in proposed certification fees resulting in a total proposed fee for 2013/14 of £186,160. The external auditor informed the Committee that the key area of work would be the financial statements and that a risk based approach would be taken giving particular consideration to areas such as the LABV, Medium Term Financial Strategy and the Slough Wellbeing Board.

Members considered a range of issues including changes the Government were making in relation to local authority audits; BDOs contract term; and the proposed fee. It was noted that any variation to the proposed fee, for example if additional work was required, would be reported to the Committee.
