

Slough Children and Young People's Partnership Board

Slough Wellbeing Board Performance Indicators 2013-15

All data reported quarterly unless stated otherwise. Baseline data and tolerances to be provided.

1. Stay Safe

Measure	Source	Notes
Contacts received at Front Door and Referrals to Children's Social Care by Source.	ICS via Russ Bourner or Jai Mondae	Referral is defined as 'a request for services to provided by local authority children's social care via the assessment process outlined in Working Together 2013 and is either in respect of a child not previously known to the local authority, or where a case was previously open but now closed. From April 2007 a pre-referral Contact stage allowed a change in recording practice. Police notifications of domestic abuse incidents or children who are missing are recorded as contacts that generally would not progress to Referral.
Number of children subject to a Child Protection Plan at month end cf. statistical neighbours and national average	ICS via Russ Bourner or Jai Mondae	A Child Protection Plan (CPP) is made when a child is judged to be at risk of significant harm, significant harm being a level of harm that affects the health, welfare and development of a child. The CPP will say what the specific risks are to the child and the actions that will be needed to keep the child safe.
Number of children who become Looked After in month cf. statistical neighbours and national average	ICS via Russ Bourner or Jai Mondae	A Looked After Child (LAC) is a child who is accommodated by the local authority, or a child who is the subject of an Interim Care Order, full Care Order or Emergency Protection Order. In addition, where a child is placed for Adoption or the local authority is authorised to place the child for Adoption, the child is a Looked After Child. Looked After Children may be placed with parents, foster carers (including relatives and friends), in Children's Homes, in Secure Accommodation or with prospective adopters.
Number and % of children who are looked after that are adopted from care or granted a special guardianship order in the last 12 months cf. statistical neighbours and national average	ICS via Russ Bourner or Jai Mondae	This shows that Looked After Children have found a "forever family" and provides an indication of permanence. There are only a small number of adoption orders and special guardianship orders granted in any 12 month period.

2. Early Help

Measure	Source	Notes
Number of Early Help Assessments initiated in month cf. statistical neighbours and national average	Early Help System	<p>Slough definition of Early Help: <i>Identifying the needs of children and families at an early stage to prevent problems escalating into crises and empowering families to seek and accept tailored, co-ordinated support that improves the lives of individual children, young people and whole families.</i></p> <p>The number of Early Help Assessments initiated in a month indicates the number of children or families that have been identified as requiring targeted interventions or services to prevent problems escalating to the point that intervention from children's social care is required (children are unlikely to achieve or maintain a reasonable standard of health or development or children are at risk of significant harm).</p>
Number and % of Early Help Assessments closed (per month) cf. statistical neighbours and national average	Early Help System	This provides an indication that the intervention or service that a child or family received has met their needs and enabled them to "step-down" to receiving universal services.
% of Early Help Assessments re-opened within 3 months cf. statistical neighbours and national average	Early Help System	This provides an indication that the intervention or service that a child or family received did not meet their needs and enable them to "step-down" to receiving universal services. This may indicate a failure to assess needs; provide appropriate interventions; or assess the impact of services.

3. Good Physical and Emotional Health

Measure	Source	Notes
Number and % of GP Practices participating in the 3C and HIV programme	Angela Snowling, SBC	This indicator may change. Health outcomes have not been confirmed. A sexual health programme.
Number and % of pharmacies distributing emergency hormonal contraception ("morning after pill")	Angela Snowling, SBC	This indicator may change. Health outcomes have not been confirmed. Availability of emergency contraception is important to controlling unwanted pregnancies, including teenage conceptions.
Number of children and young people accessing NHS IAPT Talking Therapies courses	Angela Snowling, SBC	This indicator may change. Health outcomes have not been confirmed. NHS IAPT Talking Therapies can benefit children and young people with clinically diagnosable mental health conditions.

4. High Quality and Effective Education

Measure	Source	Notes
% and numbers of pupils registered for FSM	Robin Crofts, Cambridge Education	<p>The Department for Education has notified Slough that based upon its research about 25% of pupils in Slough who are eligible to receive Free School Meals (FSM) are not registered to do so.</p> <p>The pupil premium was introduced in April 2011 and is allocated to schools to work with pupils who have been registered for free school meals at any point in the last six years (known as 'Ever 6 FSM'). During 2013/14 schools can claim an additional £900 per pupil registered to receive FSM, which they must use to improve educational outcomes for vulnerable pupils.</p>
% and numbers of children attending Children's Centres registered to receive FSM	Jean Cameron, Cambridge Education	<p>Children aged 2, 3 and 4 who attend a Children's Centre are eligible for Free School Meals and Early Years settings can claim deprivation payments from the Local Authority for children who are registered to receive FSM.</p> <p>Once FSM eligibility is notified to Children's Centres this information is recorded on Slough's School Information Management System and available to all school phases that the child attends.</p>
Number and % of children achieving a good level of development at the end of EYFS – Chalvey Grove and Romsey Close Children's Centres cf. Slough and national averages	Jean Cameron, Cambridge Education	<p>A completed EYFS Profile consists of 20 items of information: the attainment of each child assessed in relation to the 17 ELG descriptors, together with a short narrative describing the child's three characteristics of effective learning.</p> <p>Assessments will be based primarily on observation of daily activities and events. Practitioners should note in particular the learning which a child demonstrates spontaneously, independently and consistently in a range of contexts. Accurate assessment will take account of a range of perspectives including those of the child, parents and other adults who have significant interactions with the child.</p>
Number and % of pupils attaining Level 4 in English and Maths at Key Stage 2 at Montem Primary School (Chalvey) and Foxborough Primary School cf. Slough and national averages	Robin Crofts, Cambridge Education	<p>Schools must administer the following levels 3-5 tests:</p> <ul style="list-style-type: none"> • English reading • English grammar, punctuation and spelling • mathematics <p>Results will be published as scores and corresponding levels for each test. Schools may also choose to administer level 6 tests. Children entered for level 6 tests are required to take the levels 3-5 tests.</p>

5. Support for Young People (SEND Reforms)

Measure	Source	Notes
Total Number of Children and Young People with statutory EHC Plans	Aman Gill, SBC	<p>These indicators will be reported from Sep 2014.</p> <p>The Children and Families Bill 2013 will extend the SEN system from birth to 25, giving children, young people and their parents greater control and choice in decisions and ensuring needs are properly met. One of the steps in the Bill is to replace Statements of Special Educational Needs with a new birth- to-25 education, health and care plan (EHC Plan).</p>
Conversion rate – number and % of Statements converted to statutory EHC Plans	Aman Gill, SBC	<p>Existing Statements must be converted to EHC Plans.</p>
