

Taking pride in our communities and town

Five Year Plan 2015 - 2019

Growing a place of opportunity and ambition

Our ambition

By 2019 we want Slough to be:

- A place where people can make good choices about where to live and work and where children can grow up to achieve their full potential
- One of the most attractive places to do business in the country, with excellent communications, business accommodation and a skilled, and available workforce

Our challenges and opportunities

We have reviewed the evidence about the people and place of Slough and have identified the following opportunities and challenges facing the town:

- A young, growing and dynamic population
- An unhealthy population, inequality in healthy lives
- o A critical need for housing and improved places to live
- Importance of continuing growth of the healthy economy of the town
- Community safety and safeguarding our most vulnerable residents
- Improving the identity and vibrancy of the centre of the town

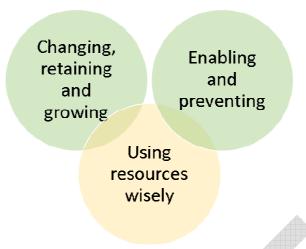

Role of the council

Slough Borough Council will meet these challenges and opportunities by:

- Demonstrating community leadership
- Shaping and managing the changing place
- Supporting the most vulnerable
- Enabling people to help themselves

Our approach

We have grouped our response to Slough's opportunities and challenges in three themes - shown below. We will focus our activity on the first two themes and the actions required to achieve the stated outcomes. **Resources will primarily be allocated to achieve these outcomes**. Resource allocation will be evidence based – there will need to be a demonstrable, evidenced link between the outcome and the key action.

The following outcomes will shape the work of the Council to respond to the opportunities and challenges facing the town:

Our outcomes

Changing, retaining and growing

- Slough will be the premier location in the south east for businesses of all sizes to locate, start, grow, and stay
- There will more homes in the borough, with quality improving across all tenures to support our ambition for Slough
- The centre of Slough will be vibrant, providing business, living, and cultural opportunities

Enabling and preventing

- Slough will be one of the safest places in the Thames Valley
- More people will take responsibility and manage their own health, care and support needs
- Children and young people in Slough will be healthy, resilient and have positive life chances

Using resources wisely

- The Council's income and the value of its assets will be maximised
- The Council will be a leading digital transformation organisation

How we will deliver our outcomes

- By working with local people and helping them to do more for themselves
- By working with a range of partners in the public, private and voluntary sectors.
- Through our staff by recruiting, retaining and developing a skilled workforce
- We will consider the needs of businesses in everything we do

How the five year plan will be used

- To drive the decisions made in the medium and long term financial strategy
- To focus on delivery of outcomes by prioritising reducing resources
- As a basis on which to have discussions with partners about the services they provide
- To develop a performance framework to which services and staff will be held accountable

Outcome Plans

Each of our outcomes will be delivered through key actions delivered by the council in partnership with a range of organisations and the community. Below is a summary of those actions. The detail of delivery, including performance measures, is set out in individual plans for each outcome.

Note - a number of the key actions will contribute to delivering more than one outcome

The budget profile

If the Council continues on the current budgetary trajectory, the relative size of the Council's budget will look like the below. The Five Year Plan will help to shape the Council's budget to avoid the default position and shape its future resources around the key outcomes it wishes to achieve.
