**NOTES:**

Sunday 15/3/15 has impacted significantly on the figures as dropped to 29% detection when less route running. Have spoken to First Buses who are going to look at the vehicle allocation at weekends for this to improve. A loan vehicle was used over the weekend which made the impact.

Route 58: All week the detection for this has varied from 0% up to 71% again the vehicle allocation for this route needs to be looked at for improvements.
