## SLOUGH BOROUGH COUNCIL

REPORT TO: Overview \& Scrutiny Committee

DATE: $9^{\text {th }}$ October 2008

CONTACT OFFICERS: Andrew Blake-Herbert<br>Director of Finance and Property Ext: 5300

## WARD(S): All

## PART I <br> FOR CONSIDERATION \& COMMENT

## REVENUE BUDGET STRATEGY - 2009/2010 AND FUTURE YEARS

## 1 Purpose of Report

This paper sets out the latest assessment of the Council's budget projection for 2009/10 and future years and considers the opportunities and threats facing the Council in the short and medium term.

## 2 Recommendations

The Committee is requested to note and comment on:
a) The Council's projected budget for 2009/10 and future years.
b) The assumptions underlying the budget strategy.

## 3 Key Policy Priority Implications

The budget is the financial plan of the Authority and as such will underpin the delivery of the Council's Key Policy Priorities throughout the forthcoming year, through the individual departmental and service plans. It therefore reflects the Council's assessment of service priorities, but within the financial constraints it finds itself.

## 4 Other Implications

### 4.1 Financial Implications

These are contained within the body of the report.

### 4.1 Human Rights Act \& Other Legal Implications

The Council has various legal responsibilities around financial matters but it is most important that it does not plan to spend more than the resources available to it in any one year. The budget strategy presents the projected financial position of the Council for 2009/10 and future years and suggests actions to be considered by members in order to deliver a balanced budget by
the time the council tax is set in February 2009.
The 2003 Local Government Bill places a duty on the Council to consider the robustness of budget estimates, the adequacy of reserves and the affordability of its capital programme in preparing its budget for the year.

There are no other legal or Human Rights Act implications.

## Workforce

Some of the budget reduction options ultimately considered may involve both the deletion of vacant posts and potential redundancies. If this is the case the council will ensure that HR policies are applied to minimise the impact of redundancies and to look for redeployment opportunities.

## 5 Supporting Information

## Executive Summary

5.1 Without action there is a significant budget gap for 2009/10 and beyond. Therefore early discussions and decisions are needed so a full years financial effect can be achieved.
5.2 The objective of a financial strategy is "To work out how the Council wants to structure and manage its finances (typically for 3,5 years) and to ensure this fits with and supports the direction of Council objectives". There are in effect two elements to this:

- Setting a balanced budget, responding to year-on-year changes and supporting business continuity
- Using the budget strategy to support and enable the transformation of services so that they match the Council's objectives and priorities
5.3 The scope of the financial strategy covers:
- Revenue and capital - capital investment strategy needs to be linked. What are the revenue implications of capital programme? Are there options for delivering objectives from revenue or capital?
- Sets a medium term outlook and agrees the budget strategy for the coming year (2009/10).
5.4 The detailed budget process can be seen in the document attached at Appendix A titled, Policy, Prioritisation and Resources Group (PPRG).
5.5 Being in the middle of three year budgets the level of resources available to the Council are clear and based on Slough being at the floor, the cashable growth from government funding for each of the next two years is only $£ 914 \mathrm{k}$ and $£ 820 \mathrm{k}$ respectively.
5.6 To meet on going commitments and continue to deliver business continuity of current services, whilst investing funds into the Council's new priorities will
require Departments to identify savings. Indicative pro rate savings targets of 4,6 and $8 \%$ have been set.
5.7 The 2008/09 monitoring position is reported to Cabinet separately on this agenda. It is crucial that the Council continues its down ward trend on the outturn projection and that overall it breaks even by the end of the financial year, other wise this will not only impact on the level of balances, but also the budget requirement for the coming year.

## Budget Consultation

5.34 The Council is under a statutory obligation to consult residents and local businesses on its budget each year.
5.35 Slough Borough Council has a strong history of consulting on the budget and recognises the benefits this brings. The benefits of consulting (some of which are listed below) are particularly important when there are significant budget pressures:

- Provide members with information to support decision making
- Promote public involvement in decision making
- Identify priorities for spending
- Identify areas in which spending reductions are seen as most acceptable
- Raise awareness about how finances are spent
- Raise awareness of the Council's sources and levels of funding
- Raise awareness of the impact of the calculation of population statistics on funding
5.36 Consultation methods range in cost and methods have been chosen which will provide a sufficient level of engagement whilst providing good value for money.

## 2009/10 Consultation Methods

5.37 The Council will consult on the Revenue Budget with the following groups:

- Local residents
- Members
- Stakeholders
- Business community
- SBC staff
5.38 Consulting internal staff will encourage staff to feel that they are well informed about Council issues and give them an outlet to express opinions.
5.39 Table 1 below sets out the methodologies the Council intends to use to consult with each group:

Table 1 Methods of Consultation

| Target Group | Methodology | Comments |
| :---: | :---: | :---: |
| Local Residents | Article in The Citizen newspaper | Educational focus, to inform residents of current funding gap as a result of Government settlement and population estimates. |
|  | Budget Simulator | This provides residents with an opportunity to see what the effects of raising or lowering spending in various areas would be both on services and on council tax levels. It also provides an opportunity to make general comments and to sign up to receive further information about the budget. The budget simulator after the consultation to raise awareness about the budget. |
|  | Website | To provide information about the budget and efforts to challenge use of flawed population estimates. |
|  | Press Releases | To raise awareness of the consultation and issues raised. |
| Members | Presentation and Budget report to Overview and Scrutiny | To enable members to discuss the budget and show preferences for spending by using 'ppvote' an electronic voting system. This will enable statistical data to be collected from Members present at this meeting. |
|  | Briefings Commissioners | These fall outside of the formal consultation process. |
| Stakeholders | Presentation to Slough Focus | Consulting the local strategicpartnership (whichincludes <br> representatives from |
| Business community | Email presentation to business representatives | Businesses have identified a preference to receive information and submit comments by email. |
| SBC staff | Budget Simulator | Staff will be invited to use the budget simulator to promote awareness of the budget and gain feedback |
|  | Internal Communications | A range of communication methods have been used and will continue to be used to raise awareness about the budget and keep staff informed. |

5.40 Communications methods will be used to ensure that the findings of the consultation are publicised. This will ensure that those who took part in the consultation are able to find out about the range of issues raised and how the feedback was taken into account when finalising the budget.
5.41 Feedback from these consultation exercises will be reported to the meeting of the Cabinet in January, allowing Members sufficient time to take any feedback into account, before the Council's Revenue Budget is finally agreed in February 2009.

## 6 Conclusion

This paper sets out the latest assessment of the Council's budget projection for 2009/10 and future years and considers the opportunities and threats facing the Council in the short and medium term. There is a substantial funding gap that will require closing before the Council is able to set a balanced budget for 2009/10.

## 1. INTRODUCTION

1.1. Slough Borough Council (SBC) is committed to delivering quality of life outcomes by allocating its revenue and capital resources to reflect the priorities agreed by the Labour Group, contained within the Local Area Agreement (LAA) and essential services. A new Strategic Planning Framework is being developed within the council and will be implemented over the coming months. To support these changes we have refreshed the Star Chamber process so that it is more focused on delivering outcomes, as well as balancing the budget and will ensure that targets match resources. To emphasise this change we have renamed the Star Chamber; it will now be called the Policy, Prioritisation and Resources Group (PPRG).
1.2. PPRG, comprising of Commissioners and Directors will be the key group that will make recommendations to Cabinet on allocating resources in 2009/10 and the subsequent two years. It will meet in the autumn on three occasions to consider::

1. the overall revenue and capital budget process for 2009/10 and beyond;
2. option appraisals, undertaken and submitted by Directorates, including proposed growth to meet the council's priorities and possible savings and efficiencies options;
3. the implications of capital and treasury investment.
1.3. The Local Government Act 2003 places a duty on the Council's Section 151 Officer to report on the robustness of budget estimates. In order to fully realise this duty the budget process will be informed by, and based on, a rigorous assessment of council-wide risks affecting both the short and medium term ${ }^{1}$.
1.4. The budget setting process is a key part of the service planning and performance management framework, which is currently under development in the council. It is clearly linked to the closing of accounts, strategic plan and in year monitoring and budgetary control processes, as well as the HR and Asset Management Strategies. Together budget setting and service planning will enable the Council to align targets and budgets.

## 2. DEVELOPING POLICY \& PLANS

## Strategic Planning Framework

2.1. $\quad \mathrm{SBC}$ is developing a Strategic Planning Framework which will improve the integration between business planning and resource allocation. The Framework is not complete but elements are influencing this year's budget setting process.
2.2. These are the key elements of the Framework:

> | Corporate Plan | • 3 year plan |
| :--- | :--- |

[^0]|  | - |
| :--- | :--- |
|  | Sets out vision and up to 40 strategic outcomes <br> Includes Corporate Balance Scorecard and Strategic <br> Staircase |
|  | - |
| Quarterly progress reporting |  |

2.3. The Framework will create a link between the Sustainable Community Strategy (and LAA), the performance framework (and national indicator set) and the strategic resource allocation process, which is overseen by PPRG.
2.4. From 2010/11, the Strategic Plans will set out how the council intends to achieve its part of the LAA priorities and outcomes, by when, and will drive the growth bids to PPRG. In other words, from 2010/11, all growth bids for investment that are considered by Members at PPRG will come through one of the Strategic Plans.
2.5. Strategic Plans have not yet been developed and so cannot be used for the 2009/10 budget. We are proposing to use the IDO format for all bids for investment to PPRG. PPRG will have to make a judgement about whether the bids support the council's priorities.

## 3. SUMMARY OF REQUIREMENTS

3.1. In conjunction with Corporate Finance, all directorates will be expected to provide the information identified below, no less than one week before the date of the relevant scheduled PPRG meeting.

- An assessment of the directorate's contribution towards the actions contained within the Local Area Agreement and the Council's priorities. This assessment should cover both new strategic growth bids and growth that is currently in the Council's business plan, having been provisionally agreed as part of the 2008/09 to 2010/11 revenue budget. Where applicable, directorates will also be expected to submit growth proposals that reflect anticipated commitments arising from the implementation of Statutory Plans ${ }^{2}$. However, it must be recognised that the Labour Group's priorities are the focus for the delivery by the council and, ultimately, it is a decision for the full Council how overall resources should be allocated.
- An assessment of any other service requirements in relation to statutory service provision, the need to deliver business continuity and implications of new responsibilities that are imposed on the Council through legislative changes and, if appropriate, how these responsibilities fit with the Council's and LAA priorities and outcomes.
- An assessment of the key risks affecting the directorate over the medium term and identified strategies for overcoming these risks
- An outline of the key unit cost (prices and volume) assumptions associated with each growth and savings proposal e.g. 'demand-led' growth bids should be explained in terms of volume and costs
3.2. It is proposed there will be three PPRG meetings, the first in early October 2008 to which all directorates will be expected to contribute and attend. Forms, which directorates must complete and submit to Corporate Finance in advance of the PPRG meeting, can be found within the Appendices of this report, and are listed below.
3.3. $C M T$ will meet to review and agree the submissions in advance of the PPRG meetings. Where possible, a 'corporate view' on the proposals will be provided by CMT to the PPRG for Members' consideration.
3.4. This report contains the following forms directorates will be required to complete in advance of the PPRG discussions. These forms will be circulated to appropriate officers as excel files.

## Appendix A

- Summary schedules highlighting changes to existing business plan savings (if any)
- Summary schedules highlighting new growth for strategic and business continuity purposes
- Summary schedules highlighting new savings

[^1]- $\quad$ Summary analysis of all proposed growth and savings by type e.g.
- Individual savings proposals should be categorised as either: efficiency, contractual, income generating or service reductions.
- Individual growth proposals should be categorised as either: demand led, contractual, legislative or service improvement or invest to save.

## Appendix B

- Detail sheets for existing individual business plan growth and savings (PPRG will wish to review the current business plan in full)
- Detail sheets for each of the new growth items
- Detail sheets for each of the new savings items

## Appendix C

- Appendix C1 - 2008-13 Capital Bid Form
- Appendix C2 - 2008-13 Capital Bids - Scheme Financial Profile
- Appendix C3 - Departmental Summary of Capital Bids
3.5. Separately, although with the assistance of directorates, Corporate Finance will collate the following key background information to inform discussions at the PPRG meetings.
- Latest capital and revenue monitoring position for the current year
- Closing position for 2007/08 with an explanation of any significant variances
- Council-approved growth and savings schedules for 2007/08 including a summary of the items actually delivered
- Personnel trends
- overall numbers
- turnover and recruitment statistics
- sickness and other absences trends
- Current aged debt analysis
- An analysis of current fees and charges
- A separate corporate benchmarking report, including:
- Financial, unit cost and volume benchmarking data
- BVPIs and other performance data
- Detailed corporate benchmarking

## 4. POLICY AGENDA

4.1. The purpose of the financial strategy is to ensure the Council's priorities are funded (transformation) whilst also ensuring existing essential services can continue (business continuity). This section clarifies the objectives and priorities that the Council wants to achieve. In later stages this report considers ways of achieving the Council's objectives and priorities, whether we can afford them, and (if not) how Members should decide what to fund.
4.2. SBC's main priorities and objectives - and proposed activities to achieve them - are set out in the Local Area Agreement and the Council's Priorities.

We have set out (in Annex 5) a schedule which pulls together the Council's priorities and LAA, and shows the relationship between them. The LAA headings are also set out in this schedule.
3.3 As noted previously, it is accepted that Statutory Plans and Government Targets will undoubtedly have an influence on the main priorities and objectives of the Council. However, as a new administration, the Labour Group are clear they have been elected to deliver on their manifesto commitments and, in the current restricted financial climate, Members will inevitably be required to make hard decisions concerning priorities for investment. All proposals to PPRG for resources for investment should clearly show how they deliver the specific activities that are reflected in the Council's priorities or LAA, in the first instance. Supplementary information can be provided, regarding proposals that result from the implementation of Statutory Plans or Government Targets, on the relevant Growth form.
3.4 Proposals to PPRG should also take account of benchmarking and performance data. A separate officer level group, the Option Appraisal Group, is being established to take this work forward and further, detailed guidance will be produced shortly. We would expect PPRG to be particularly interested where: unit costs are upper quartile, performance is lower quartile, or there is a combination above-median cost with below-median performance. Where there is agreement that action needs to be taken as a result of the benchmarking, it will be added to the list of planned option appraisals

## 5. BASELINE

5.1. The financial baseline provides a context for setting priorities and making decisions. SBC can expect a tough financial position over the coming three years; savings will have to be found to balance the budget and to find resources to reinvest in the council's priorities.
5.2. In the 2008/09 financial year there is severe pressure on some service budgets, with a predicted $£ 2.5 \mathrm{~m}$ overspend; we must bring the budget in with a balanced bottom line. The impact is not only on this financial year but also into future years.
5.3. The budget agreed by council in February is set out in Annex 1; it is based on a $4.99 \%$ increase in council tax in each year - marginally below the capping limit set by Government.
5.4. Taking all anticipated further pressures together, we estimate that the budget gap for 2009/10 will be:

| 2008/09 over spend on going | $£ 2.5 \mathrm{~m}$ |
| :--- | :--- |
| Additional Inflation Requirements | $£ 0.5 \mathrm{~m}$ |
| Harmonisation \& CCS pressure | $£ 1 \mathrm{~m}$ |
| Assumed investment in priorities | $£ 2.0 \mathrm{~m}$ |
| Total New Pressures (Worst <br> scenario) | $£ 6 \mathrm{~m}$ |
| case |  |

5.5. This budget gap will have to be met from savings or reductions in planned growth. In line with Government's expectation and the associated efficiency Performance Indicator, every directorate will have an indicative annual 3.1\% savings target to aim to achieve based on net budget. The overall indicative savings targets for 2009/10 to 2011/12 are shown at Annex 2. In 2009/10, the budget gap, cumulatively, represents approximately $6 \%$ of the overall revenue budget, which the Council will need to achieve on the bottom line. However, given the Council priorities, it is unlikely that Councillors will wish for the savings targets to be distributed evenly across all Council departments. Therefore, directorates are expected to submit savings proposals reflecting 4\%, $6 \%$ and $8 \%$ of their base budget 2008 (inclusive of efficiency savings but exclusive of forthcoming savings agreed in 2008/09), so members can take informed decisions across the Council as a whole.
5.6. Given the pressure on resources at this stage in the budget process, and the fact that a new Council leadership is now in place (who did not agree the previous budget), all growth that was previously agreed for the 3-year business plan (2009/10 and 2010/11) will be reconsidered. It is recognised that some of this growth may still be required - where this occurs it will need re-presenting as part each directorate's overall submission to PPRG. Depending on recommendations made at PPRG, there is the potential to take out growth in the business plan of $£ 1.28 \mathrm{~m}$ in 2009/10 and $£ 1.17 \mathrm{~m}$ in 2010/11 (see Annexes 3 and 4).
5.7. However, all existing savings, agreed at the 2008/09 budget, for 2009/10 and 2010/11 are deemed to still be required unless the Leadership decides otherwise.
5.8. Rising inflation is a major issue and we need to measure how it is affecting the council and whether our 3-year financial plan is still sustainable. A corporate report on inflation will be made available to PPRG in early October.
5.9. Government has announced 3-year individual Formula Grant, Dedicated Schools Grant and various other specific grant allocations for all local authorities between 2008/09 to 2010/11. We do not expect the Government will make any changes to these published allocations in the future. For Formula Grant in the following year (2011/12) we have assumed that SBC will remain at the funding floor and that this will represent a $1 \%$ increase in funding. This assumption will be reviewed and revised, where necessary, as further information is made available by Government.
5.10. Government is assuming that local authorities will use their Area Based Grants (ABG) flexibly and in line with local area priorities. Further, the Audit Commission will be assessing the level of this flexibility in the Comprehensive Area Assessments, which start in 2009. Corporate Finance has undertaken a provisional assessment of the individual components of the current ABG. As a result of this assessment, we recommend that further investigation is undertaken regarding the following grants, with a view to using them to support priorities that have been agreed in the Local Area Agreement.

- Extended Schools Start-up costs $£ 0.476 \mathrm{~m}$ in $2009 / 10$ and $£ 0.196 \mathrm{~m}$ in 2010/11 - Potentially high flexibility. Providing there have been no commitments in 2009/10 and beyond, this could be considered as part of an overall bidding pot.
- Positive Activities for Young People $£ 0.654$ m in 2009/10 and $£ 0.849 \mathrm{~m}$ in 2010/11- Potential for part of the increase in grant to be opened up for wider use (grant in 2008/09 was $£ 0.381$ m).
5.11. Corporate Finance also believe there may be potential flexibility in the way the following grants are used:
- Supporting People (from 09/10 onwards)
- Cohesion
- Local Involvement Networks
- Connexions
- Sustainable Travel General Duty
- Care Matters White Paper
- Carers
- School Development Grant
- Youth Taskforce
5.12. We recognise that the elements of $A B G$ affecting the Education and Children's Services directorate are, essentially, at the discretion of the Schools' Forum and/or relate to statutory functions. However, we believe there is value in investigating all possible avenues of income maximisation even if this exercise results in a dead-end. Accordingly, Corporate Finance will be undertaking further investigation of all the ABG elements noted above, with a view to informing a future CMT discussion before the PPRG meetings commence in October 2008.
5.13. The remaining components of the ABG, not highlighted above, will be placed into the Council's base budget as a corporate contingency. Any expenditure incurred by directorates against these specific grant amounts will be scrutinised, before the contingency is released, in line with other relevant council expenditure.
5.14. Corporate Finance hope to be able to report on whether an additional tranche of LABGI funding is available to the council, before the first PPRG meeting in early October.
5.15. The currently approved capital schemes and schemes on the capital reserve list are provided at Annex 7.

## Option Appraisals

5.16. SBC uses option appraisals to support decision-making on growth and savings. The role of option appraisals is to give Members more control and choice, through a transparent process, enabling them to consider finance issues alongside performance and policy objectives resulting in informed decisions being made.
5.17. The Council is currently establishing an Option Appraisal Group to oversee this process and inform the revenue budget process.
5.18. A schedule of ongoing option appraisals, from the 2008/09 budget process, is attached at Annex 6. In addition - based on discussions with the Labour Group - we are expecting the following option appraisals to also be undertaken, in time to inform decisions regarding the 2009/10 revenue budget:

- Fees and charges. This will be a corporate-led appraisal.
- Inflation and assumptions the council will make regarding staffincrements. Again this will be a corporate-led appraisal. It will consider the full cost of fully-funding inflation for all services. It will compare this to the financial implications of providing no funding for inflation and funding inflation at the currently-budgeted level.
- CCTV. Creating a shared service for CCTV, real-time public information and community safety.
- Improving open spaces (including achieving Green Flag Status for Salt Hill Park); cleaning up playgrounds and improving access; enforcing littering bye-laws; invest in Street Pride programme.
- Improving links between local businesses and schools and youth clubs in Slough in order to help young people acquire skills.
- Reconfigure youth services to focus on skills/ aspiration as well as leisure.
- Consider possibility of discounted youth bus-pass, or other alternatives.
- Improving access to community assets in Slough and expanding community groups and locally-based activities.
- Establish local skills centre and work with employers in Slough to increase investment in training and adult learning. Help people in Slough to access jobs.
- Promote independent living and promotion of lifestyle interventions.
- Commissioner / Provider of services (CW\&B)
- Community Facilities review.
- Cultural Offer
5.19. As noted, in para 3.4 above, where there is agreement that action needs to be taken as a result of the benchmarking, it will be added to the list of
planned option appraisals. Further, once the Strategic Planning Framework has been launched it is expected that a list of service reviews will be required; many of these reviews will be supported by an option appraisal process.
5.20. For the first PPRG meeting in early October we are expecting summary option appraisals. The form for this is at Appendix B4. To complete this form, the service managers will need to have thought through and documented:
- why the appraisal is necessary;
- the scope of the appraisal;
- the objectives of the service being appraised; and
- potential options for delivering the objectives
- high-level financial information should also be provided at this stage.
5.21. It is expected that some option appraisals will be complete by early October 2008 and, in this case, final appraisals will be expected to be submitted to PPRG for consideration. The final appraisal form can be found at Appendix B4.
5.22. Training and support, for this process, is available from corporate finance. Training can be to tailored individual service or departmental requirements. We can also facilitate the development of option appraisals and full guidance is available on request.

## Discretionary sources of funding

5.23. Additional funding may be available to invest in priorities on a discretionary basis. Potential sources are:

- Area Based Grants. This has been considered above.
- PSA Reward Grant. There is potentially $£ 1.3 \mathrm{~m}$ capital funding and $£ 0.840 \mathrm{~m}$ revenue funding available over the next 2 years.
- LABGI. Depending on the outcome of the second court case there is a potentially a further $£ 1 \mathrm{~m}$ available for one off initiatives.
- $3^{\text {rd }}$ party funding including use of S106 money
- BID and supplementary business rates
5.24. If realised, these resources will be used to fund investment priorities. Specific proposals will come through the option appraisal process or growth bids (see below). We are not envisaging a separate bidding round for these grant streams.

## Growth

5.25. PPRG will only consider growth bids that are:

- Directly linked to Council priorities or LAA priorities and outcomes
- Based on an option appraisal
- Essential to maintain business continuity or the result of new legislative burdens placed on the council
5.26. Growth bids for strategic investment (i.e. direct delivery of LAA priorities and outcomes or Council priorities) should be submitted using the form at Appendix B1. Growth bids for business continuity should be submitted on the form at Appendix B2.

## Savings

5.27. In order to balance the budget and to generate resources to reinvestment, every directorate has a savings target. Savings could be achieved in the following ways:

- Efficiency savings
- Service reduction
- Increase in planned savings (i.e. over and above that already agreed in the 3-year business plan)
- Increased income
5.28. It is also expected that there will be further savings arising out of the option appraisal process and that these savings will be fed into the budget process later in the year.
5.29. We have circulated separately, to CMT, a ranked list of services where the Leadership believes savings/efficiencies could be achieved.

## 6. DECIDING ON THE WAY FORWARD

6.1. The timetable for the budget setting process will be as follows:

| Summer- October | Development of proposals in departments |
| :---: | :---: |
| Early October | PPRG Session 1 Commissioners' Away-Day(s) <br> - To agree specific detailed proposals <br> - To agree further actions required to balance budget <br> Supporting information: <br> - Individual proposals, including option appraisals <br> - Latest financial projections |
| Autumn 2008 | Budget Consultation with the wider community will be on the recommended options to Cabinet. Focus Groups and wider survey will be used to engage with residents and businesses. |
| December 2008 | Provisional Local Government Finance Settlement 2009/10 |
| $\begin{aligned} & \text { December/January } \\ & 2008 \end{aligned}$ | PPRG Session 2 <br> - To review further work by directorates <br> - To agree a final budget for 2009/10 and associated council tax level. |

|  | Supporting information: <br> $\bullet \quad$ Individual proposals, including option appraisals <br> $\bullet$ Latest financial projections |
| :--- | :--- |
| January 2009 | Final Local Government Finance Settlement 2009/10 |
| January 2009 | Administration's budget proposals to Scrutiny Committee |
| February 2009 | Full Council agrees Revenue and Capital Budgets 2009/10 |

6.2. We are also setting up (or revitalising) a number of groups that will be capable of dealing with the detail of the budget setting process in between the PPRG meetings. These will be:

- LAA delivery workshops
- Strategic Finance and Performance Group
- Strategic Planning Group - aligned to the Berkshire Improvement Programme)
- Asset Management Group
- Option Appraisals Group - including Benchmarking and VFM

## Annex 1

Funding Position 2008/09 to 2010/11

| SLOUGH BOROUGH COUNCIL |  |  |  |  |

## Annex 5

## LAA Priorities \& Outcomes and Labour Group Priorities

| Priority Area | Labour Group Priorities | LAA Priorities | LAA Actions | National Indicator |
| :---: | :---: | :---: | :---: | :---: |
|  |  | Overarching long term vision: to secure a cohesive community, where people from different backgrounds get on well together | 1. Celebrate diversity by promoting positive relations between different racial groups |  |
|  |  | Overarching long term vision: to secure a cohesive community, where people from different backgrounds get on well together | 2. Strengthening communities to resist all forms of extremism |  |
|  |  | Overarching long term vision: to secure a cohesive community, where people from different backgrounds get on well together | 3. Improving relations among established a new communities and strengthening existing populations and cultures |  |
|  |  | Safer Communities Being safe, feeling safe | 13. Reducing crime and fires |  |
| Safer Neighbourhoods - Action on Crime | 1. Provide a dedicated community warden to patrol the streets in every neighbourhood in Slough - and you'll know their face and phone number |  |  | NI 17 (38, 16, 20,49) Perceptions of antisocial behaviour (partly: Serious acquisitive crime rate; Assault with injury crime rate; Drugrelated (Class A) offending rate; Number of primary fires and related fatalities and non-fatal casualties, excluding precautionary checks) |
| Safer Neighbourhoods - Action on Crime | 2. Take action to enforce local bye-laws and to tackle offences like littering, dog-fouling, vergeparking, and anti-social behaviour on our streets | Safer Communities Being safe, feeling safe | 14. Reduction in local concerns about antisocial behaviour including that associated with drugs and alcohol | $\begin{aligned} & \text { NI } 17(38,16,20,49) \\ & \text { See above) } \end{aligned}$ |

| Safer Neighbourhoods - Action on Crime | 3. Reclaim our streets, taking a tough line against gangs \& loutish behaviour and installing lighting \& locked gates to dark, unsafe footpaths \& alleyways | Safer Communities Being safe, feeling safe | 15. Tackle the root causes of crime and antisocial behaviour, drugs and alcohol misuse | NI 17 (38, 16, 20,49) See above) |
| :---: | :---: | :---: | :---: | :---: |
| Safer Neighbourhoods - Action on Crime | 4. Expand CCTV coverage to include neighbourhood centres in our estates and residential areas as well as local crime 'hot-spots' |  |  |  |
| Safer Neighbourhoods - Action on Crime | 5. Ensure enforcement is carried out fairly across the town - the Council should tackle serious breaches of its rules, not just focus on 'easy pickings' |  |  | NI 140 - Fair Treatment by Local Services |
| Safer Neighbourhoods - Action on Crime | 6. Fund a 'rapid-response' team for environmental crimes, vandalism \& graffiti |  |  | NI 7 - Environment for a Thriving Third Sector |
| Putting the pride back in Slough's streets | 7. Invest in a major 'street-pride' programme to repair street-furniture and lamp-posts, replace damaged signs \& de-clutter the streetscape of our town | Environment - A place to live, work and play | 9. Improved satisfaction with the local area and improved street and environmental cleanliness | NI 17 - Perceptions of Anti-Social Behaviour |
| Putting the pride back in Slough's streets | 8. Take tough action on fly-tipping and graffiti, and invest in extra barrow-men to keep local streets clean |  |  | NI 17 - Perceptions of Anti-Social Behaviour |
| Putting the pride back in Slough's streets | 9. Install more litter \& dog bins to the parks \& play areas in our neighbourhoods |  |  | NI 17 - Perceptions of Anti-Social Behaviour |
| Putting the pride back in Slough's streets | 10. Re-instate cuts to the repairs budget for roads \& pavements; filling pot-holes, repairing pavements, replacing kerbs \& resurfacing streets |  |  |  |
| Putting the pride back in Slough's streets | 11. Make bus journeys easier - investing in Council-funded services and bringing in real-time bus information displays |  |  | NI 177 - Local bus passenger journeys originating in the authority area |
| Putting the pride back in Slough's streets | 12. Find resident-friendly solutions to local parking problems - with extra bays and capacity where required, and with improvements to onstreet parking |  |  |  |
| Putting the pride back in Slough's streets | 13. Mount a concerted campaign to free local neighbourhoods of rats \& pests |  |  |  |
|  |  |  |  |  |
|  |  | Environment - A place to live, work and play | 10. Increase waste diverted from landfill and increase energy recovery from residual waste and increase recycling rates |  |

|  |  | Environment - A place to live, work and play | 11. Lead the effort to avoid dangerous climate change |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  | Environment - A place to live, work and play | 12. Increase accessibility to employment |  |
| A greener Slough, with smarter spaces | 14. Clean up, not close down local playgrounds we believe every Slough child deserves somewhere decent to play within 10 minutes walk of their home |  |  | NI 110, 117 (Young people's participation in positive activities; 16 to 18 year olds who are not in education, training or employment (NEET)) |
| A greener Slough, with smarter spaces | 15. Invest the $£ 1.2$ million needed to clear neglect from Slough's open spaces: working to achieve Green Flag status for Salt Hill, Slough's premier local park |  |  |  |
| A greener Slough, with smarter spaces | 16. Plant trees and landscape local public space to smarten-up our town |  |  |  |
| A greener Slough, with smarter spaces | 17. Reform local planning policies to make development more environmentally friendly - and ensure the Council conserves energy in its buildings \& facilities |  |  | NI 186 (Per capita CO2 emissions in the LA area) |
| A greener Slough, with smarter spaces | 18. Improve recycling services - rolling out a green-waste bin to every house-hold that wants one, bringing in new recycling containers, more bring-banks and a better service. |  |  | NI 192 (Household waste recycled and composted) |
| A greener Slough, with smarter spaces | 19. Seek to add new materials to the collection as we can, and we guarantee we WILL NOT introduce fortnightly collections for household waste. |  |  | NI 192 (Household waste recycled and composted) |
|  |  |  |  |  |
|  |  | Health and Wellbeing - Adding years to life and life to years | 4. Promotion of independent living |  |
|  |  | Health and Wellbeing - Adding years to life and life to years | 5. Promotion of a range of lifestyle interventions targeted at conditions and behaviours that improve (objective and subjective) health, add life to years and reduce years of life lost, increased levels of breastfeeding to reduce levels of obesity, heart disease, cancers and chest conditions. |  |
|  |  | Health and Wellbeing - Adding years to life and life to years | 6. Reduce the number of drug users |  |
|  |  | Health and Wellbeing - Adding years to life and life to years | 7. Improve the provision of affordable homes |  |

$\left.\begin{array}{|l|l|l|l|l|}\hline \text { A strong economy, good } \\ \text { leisure, action on skills }\end{array} \quad \begin{array}{l}\text { 27. Build better partnerships with the business } \\ \text { community to help regenerate the High Street, } \\ \text { shopping areas, run-down neighbourhoods \& } \\ \text { local centres }\end{array}\right)$
