EXPLANATORY FOREWORD

1. Presentation of Accounts and Changes in Presentation

The Statement of Accounts sets out details of the Council's Income and Expenditure for the 2014/15 financial year and its Balance Sheet as at 31st March 2015. The financial statements are presented in accordance with statutory requirements under the Accounts and Audit Regulations 2011 and the Code of Practice on Local Council Accounting in the United Kingdom 2014/2015.

2. Explanation of the Statement of Accounts

The Council's financial statements are set out on pages 24 to 104, and consist of the following:

- The Movement in Reserves Statement, which shows how the surplus or deficit in the Comprehensive Income and Expenditure Statement links with the movement on the General Fund balance for the year. The General Fund balance is key in determining Council Tax levels.
- The Comprehensive Income and Expenditure Statement, which summarises the Council's Comprehensive Income and Expenditure for all services provided during the year and the movements in the net worth of the Council. This also shows how much is received from Council Tax receipts and central government.
- The Balance Sheet, which gives the Council's financial position as at the 31 March 2015 for the above mentioned areas and services. This shows what the Council owns and what is owed.
- The Cash Flow Statement, showing the movements in the Council's cash balances resulting from transactions with external organisations for both capital and revenue purposes.
- Notes to the financial statements, which cover supplementary information to the above statements. This includes the Statement of Accounting Policies which explains the basis of the figures in the financial statements and includes changes in policy, the basis of charges to revenue and the calculation of balance sheet items.
- The Housing Revenue Account (HRA), which provides details of the Comprehensive Income and Expenditure of the Council's dwellings and associated properties for which it is responsible as a landlord. This section includes a Statement of Movement on the HRA balance, which shows how the HRA Comprehensive Income and Expenditure Account surplus or deficit for the year reconciles to the movement on the HRA balance for the year and supplementary notes.
- The Collection Fund, which shows how income from Council Tax is used to meet expenditure by the Council and its preceptors, and shows the collection of Business Rates. The Council is required to maintain this separately from other funds and accounts. The financial year 2014/15 marked the second year of the revision to the local government finance regime with the introduction of the retained business rates scheme. The scheme gives Councils a greater incentive to grow businesses in their area although it also increases the financial risk due to non-collection and the volatility of the business rates tax base.
- Glossary of Financial terms, which provides an explanation of terms used within the financial statements.

Explanatory foreword to the financial statements 2014/15

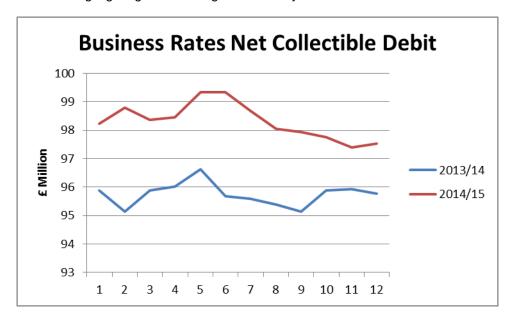

The 2014/15 financial year saw a number of significant financial and performance occurrences that will impact on the Council for a number of years ahead. Financially, the Council successfully managed its revenue budget with a small underspend of just below £250k whilst delivering the largest savings programme, of £12.5m, that the Council has needed to deliver. Much of the Council continued to perform well, the Education results being one particular highlight, though the decision by Government to move the provision of Children's services across to a new organisation will have longer term financial and operational impacts for the Council.

A full copy of the Council's outturn report can be found on http://www.slough.gov.uk/moderngov/ieListDocuments.aspx?Cld=109&Mld=5360&Ver=4

Revenue outturn

As noted above, the Council managed to deliver a small underspend during the year. This was achieved at the same time as freezing Council Tax for residents and delivering over £12m of new savings for the financial year. This underspend was achieved at a time when Children's services overspent by £1.4m; many other service areas underspent to help bring the outturn position back in line. The Council is placing the underspent money into reserves to use seed money for delivering ongoing revenue savings, and to offset a small part of the reductions to Government grants.

The Council is also much more exposed to fluctuations in income, especially in respect of Business Rates. Below is a chart highlighting those changes to volatility.

As can be seen from the above, there was a shift in over £2m between the high and low points of the amount of Business Rates debit that <u>could</u> be collected during the year. Though the Council is exposed to 50% of the amount of this volatility, it is still very significant to the Council both in the current financial year and for future financial years. If the business rates base shrinks, then the Council's longer term income will decrease.

The overall financial position in the financial statements is showing an underspend of £224k. This compares with £277k shown in appendix A of the outturn report. The small variation is due to ensuring the Council complied with the current accounting regime and included some funding and expenditure changes whilst presenting a draft outturn report to the 22nd June Cabinet.

Capital outturn

There have been a number of major projects commencing during the year with the Curve progressing. The outturn showed that 62% of the capital programme was spent during the year, see the summary below.

	Expenditure		
Directorate	Budget	Actual £000s	% Expend v Budget
Resources (Including Heart of Slough)	22,519	17,531	77.85%
Wellbeing	6,492	4,858	74.82%
Chief Executive	76	80	104.92%
Customer & Community Services	12,177	4,414	36.25%
Housing Revenue Account	19,155	10,672	55.71%
Total	60,419	37,554	62.16%

The areas of significant re-profiling are in respect of housing development funding, which is expected to see much larger levels of expenditure in future years with the HRA proposing to buy sites at Ledgers Road and Wexham Nursery that are being developed through the Slough Regeneration Partnership. There has been re-profiling on the Curve project, though this does not impact on the delivery of the project, just that the financial flows need to be more accurately reflected. There has also been significant re-profiling of the cemetery and crematorium projects.

Financial Statements Summary

structure.

The draft accounts show a gross deficit in 2014/15 of £98,707k with a net deficit of £8,691k. This deficit includes a number of accounting entries which do not form part of the Council's actual General Fund and HRA balances. These accounting entries such as depreciation and pension fund are then reversed out in the Movement in Reserves Statement so that there is no effect on the overall Council Tax and Housing rents. The net position on General Fund balances is breakeven. The CIES reflects the continuing reduction in gross expenditure throughout the services, representing a reduction in costs and the continuation of shrinking public sector funding.

Movement in Reserves Statement

This statement analyses the movements in reserves as they appear on the balance sheet.

There has been no increase or decrease in the General Fund Balance leaving a balance as at 31st March 2015 of £8.1m

Earmarked reserves are those that have been set aside to cover a particular risk, or are for particular purposes. These total £18.8m including school balances of £7.8m

Balance Sheet

The Balance Sheet shows the assets and liabilities of the Council as at 31st March 2015.

Assets include property, plant and equipment, cash and cash equivalents and any debts owing to the council

Liabilities include loans taken out by the Council to finance capital expenditure and any debts owed by the Council.

Property plant and equipment has increased in value by £44m. This is due to the net effect of revaluations, additions and enhancements during the year. The Curve is included as an Asset under construction.

£20M of Short term cash deposits have been moved into long term investments in order to maximise the use of our money. Creditors raised at year end to ensure the correct outturn position is reached are reducing as we become more efficient at processing payments during the year. The detailed creditors are included as a note to the statements.

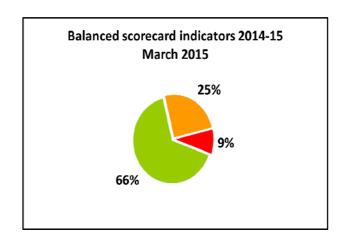

The above has resulted in a slightly reduced Net

	<u> </u>

Performance summary

In respect of external organisation's reviews of the Council, the second inadequate inspection from OfSTED in respect of Children's Social Care has led to the proposed transfer of the provision of children's services to a separate organisation to occur during the 2015-16 financial year. However, this decision was made during the 2014/15 year, and though there have been no direct financial implications for the financial statements in 2014/15, there will be for future years (as detailed later in this foreword).

The summary of the Council's progress against its balanced scorecard is reflected below. From a financial angle, the improvements in the collection rates for Council Tax and Business Rates during 2014/15 are welcomed and should lead to improved overall collection rates into the future which will provide additional income to the Council. There have been a number of indicators that have been red at points during the year with one being the number of safeguarding assessments completed within Children's Services in 45 days (though at almost 80% this was a significant improvement during the year) and in respect of housing the number of families in bed & breakfast and temporary accommodation. The latter one will have financial ramifications for the 2015/16 as there becomes a growing pressure on the Council's general fund to afford the level of housing costs in respect of homelessness across the borough.

The Council also has a programme of major 'gold' projects. As large and complex projects, these are the most significant ones for the Council to manage over the year. At present, these are all showing as 'amber' for overall progress.

Accounting changes

For 2014/15 there have been no material changes to accounting policies / updates to the presentation of these financial statements. For 2015/16 there will be a number of changes with accompanying impacts, and these are highlighted below:

- Group Accounts (Slough Regeneration Partnership (SRP) & new Children's Services Organisation). With the development of the SRP and the setting up of a new organisation to provide Children Services in Slough there will be a requirement to revisit the code in relation to group accounts and the need to consolidate financial statements.
- Transport Infrastructure Assets. An adoption of new measurement requirements for Highways Infrastructure is planned in 2016/17. 2015/16 will be used to build up the information for full adoption in 2016/17. We have to disclose the carrying amount of assets expected to be reclassified as transport infrastructure assets, where material, in the 2015/16 accounts.
- Bringing forward the closedown of the financial statements this will be a major piece of change work for the Council to re-engineer processes to produce the financial statements more quickly, as well as working with the Council's external auditors to enable sufficient and robust information being available for audit.

Key issues for future years

As well as the accounting issues the Council faces for the year ahead, one of the key challenges is delivering the Council's services, as articulated through the 5 Year Plan (5YP) with a much reduced financial resource base.

The graph below shows the anticipated financial position for the years ahead. The election of a new Government in May, and the expected budget announcements in July and Spending Review over the rest of 2015 are likely to mean that the savings line grows for both 2016/17 and 2017/18 as the Government aims to compress spending reductions into a shorter timeframe then previously anticipated.

One of the key challenges for the above is containing expenditure in social care and waste management (these areas alone account for approximately £70m of the Council's budget) and have large demand pressures on them. In respect of Children's social care, there will be the impact of the new CSO. For adults, there are major policy changes in respect of the Care Act and Better Care Fund, as well as an expected growing ageing population. In respect of waste management, much of the future financial position is based on a growing tax base of properties, which though positive for increasing income to the Council does have a financial impact on how the Council best utilises the waste management assets.

To ensure that financial resources flow in an aligned fashion with the 5YP, the Council is undertaking a programme of Outcome Based Budgeting over the summer 2015 to align budgets to outcomes, and to then set out how the financial resources over the coming five years will flow across Outcomes to meet the financial challenge, but also focus scarce financial resources to these priorities.

The presentation of the financial statements, and a timely external audit, is a key objective for the Council to assure our stakeholders of good levels of financial management. This foreword is intended to highlight the most important matters during the financial year 2014/15. These financial statements are produced in accordance with the requirements of the 'Code of Practice on Local Authority Accounting in the United Kingdom' which adopts International Financial Reporting Standards.

FURTHER INFORMATION

Further information about the accounts is available from:

The Assistant Director Finance & Audit or The Corporate Financial Controller Slough Borough Council St Martins Place 51 Bath Road Slough SL1 3UF

Members of the public also have a statutory right to inspect the accounts each year before the audit is completed. The date and times of these inspections have been advertised in the local press

Annual Governance Statement

How did we do in 2014/15? Were we well-governed?

Slough Borough Council

INTRODUCTION AND PURPOSE OF THIS DOCUMENT

This document is an assessment of our "governance", but what do we mean by that word? There is no legal definition of "governance", but we believe it is best summarised as:

having:

- the right **governance structures** (including constitution, committees, delegated powers, internal management structures and audit arrangements)
- the right plan of action (including vision, aims, approaches and ambitions); and
- the right way of operating (including openly, honestly and efficiently)

so that we deliver:

• the right services, to the right people, at the right price and at the right time.

Further guidance is given by CIPFA (the Chartered Institute for Public Finance and Accountancy) and SOLACE (the Society of Local Authority Chief Executives) which in 2007 jointly published a "Framework for Delivering Good Governance in Local Government", updated by an Addendum in December 2012.

This guidance is recognised as the proper practices referred to in the Accounts & Audit Regulations that we must follow (and in that sense is the nearest one can get to the 'official' definition of Governance), and sets out six core principles of good governance, which we think are compatible with the summary we gave above.

CIPFA/SOLACE lists these core principles as:

- 1. Focusing on the purpose of the Council and on outcomes for the community and creating and implementing a vision for the local area
- 2. Members and Officers working together to achieve a common purpose with clearly defined functions and roles
- 3. Promoting values for the Council and demonstrating the values of good governance through upholding high standards of conduct and behaviour
- 4. Taking informed and transparent decisions which are subject to effective scrutiny and managing risk
- 5. Developing the capacity and capability of Members and Officers to be effective
- 6. Engaging with local people and other stakeholders to ensure robust public accountability.

The law requires each council to produce an annual statement to provide assurance that it is a well-governed organisation with the right policies and controls in place to ensure excellent public services are delivered and public money is spent wisely. This is called our 'Annual Governance Statement' and includes a 'review of effectiveness'.

This report is written under the authority of the council's Audit and Risk Committee and approved by it on 8th July 2015 through its delegated authority. It is signed by the Leader (an elected Councillor) and Chief Executive (an Officer) and published with the final accounts by 30th September 2015. It was submitted to our external auditors along with our annual accounts in July 2015; the auditors will consider whether the information we've submitted meets their expectations as part of their annual opinion in September 2015.

We acknowledge our responsibility for ensuring that an effective system of internal financial control is maintained and operated in connection with the resources concerned. The system of internal financial control can provide only reasonable and not absolute assurance that assets are safeguarded, that transactions are authorised and properly recorded, and that material errors or irregularities are either prevented or would be detected within a timely period.

GOVERNANCE STRUCTURES

In the Introduction above, the first thing we said was that we should have the right governance structures in place.

The key elements of the systems and processes that comprise Slough Borough Council's governance

arrangements are set out below and include arrangements for:

- Identifying and communicating Slough Borough Council's Strategy through our Five Year Plan 2015-2019.
 The Plan sets out our intended outcomes for citizens and service users, the key actions to deliver these outcomes and how we will measure success.
- Delivering the Council's Corporate Plan for 2014/15
- Measuring the quality of services for users, ensuring they are delivered in accordance with Slough Borough Council's objectives and ensuring that they represent the best use of resources
- Defining and documenting the roles and responsibilities of the executive, non-executive, scrutiny and
 officer functions, with clear delegation arrangements and protocols for effective communication
- Developing, communicating and embedding codes of conduct, defining the standards of behaviour for members and staff
- Reviewing and updating the Constitution including Contract and Financial Procedure Rules, the scheme of delegation, which clearly define how decisions are taken and the processes and controls required to manage risks
- Ensuring the authority's financial management arrangements conform with the governance requirements of the CIPFA Statement on "The Role of the Chief Financial Officer in Local Government (2010)"
- The Audit and Risk Committee (now Audit and Corporate Governance Committee) which performs the core functions of an audit committee, as identified in CIPFA's "Audit Committees – Practical Guidance for Local Authorities"
- A review of the effectiveness of Internal Audit, which was undertaken in 2014/15 through the use of a competitive tendering exercise, from which Baker Tilly were the preferred provider
- Whistle-blowing and for receiving and investigating complaints from the public
- Identifying the development needs of Members and senior officers in relation to their strategic roles, supported by appropriate training
- Establishing clear channels of communication with all sections of the community and other stakeholders, ensuring accountability and encouraging open consultation.

This section reviews those structures. We govern ourselves through **Council**, a **Corporate Management Team**, **Cabinet** and **Committees**, and we have many **policies** in place that govern our activities which we follow. These are listed in turn below:

Council

There were 41 elected Councillors in place at the start of the 2014/15 financial year. The number of elected Councillors increased to 42 following the Local Borough elections on 22 May 2014. The Council met seven times during the year. The numbers attending each meeting were as follows:

- 22 April 2014: All 41 Councillors attended the meeting
- 5 June 2014: 41 Councillors attended the meeting
- 22 July 2014: 39 Councillors attended the meeting
- 25 September 2014: 41 Councillors attended the meeting
- 25 November 2014: 39 Councillors attended the meeting
- 27 January 2015: 37 Councillors attended the meeting
- 19 February 2015: 37 Councillors attended the meeting

Meetings of Council were held in open forum and considered reports from other committees.

• Corporate Management Team (CMT)

CMT meets regularly throughout the year, and reviews and approves reports before they are sent on for consideration by the relevant Committee. They are also involved in the development of new policies and strategies for the Council, either directly, or by management review and comment. Senior members are:

- the Chief Executive (Ruth Bagley) is the person who is ultimately responsible for the welfare of the Council's employees;
- the Strategic Director, Wellbeing;
- the Strategic Director, Customer & Community Services; and
- the Strategic Director, Regeneration, Housing & Resources.

Supporting Officers

• the **Section 151 Officer** (Joseph Holmes) is responsible for looking after the financial affairs of the Council, fulfils the role of Chief Financial Officer and is a CIPFA Qualified Accountant. The role of the Chief Financial Officer complies with the governance requirements as set out within the CIPFA Statement on the Role of the Chief Financial Officer in Local Government (2010) through:

- Being a key member of the Leadership Team, with a dotted reporting line to the Chief Executive, helping it to develop and implement strategy and to resource and deliver the organisation's strategic objectives and having access to CMT papers and meetings;
- Being involved in all material business decisions made by the Council to ensure both immediate and long term risks and implications are considered and that these are in line with the financial strategy;
- Leading the promotion and delivery of good financial management across the Council through ensuring that key financial targets are being set and reporting on performance against these to CMT
- Ensuring the finance function is well led and effectively resourced throughout the year.
- the **Monitoring Officer** (Kevin Gordon) is responsible for ensuring that decisions by the Council are legal, and are made in an open and transparent way. The Monitoring Officer also reviews any reports or complaints about conduct and behaviour:

Cabinet

The Cabinet is the Council's principal decision-making body, consisting of elected Councillors, appointed by the Leader of the Council, each with an area of responsibility called a 'portfolio' for which they are 'Commissioners'. Although the Cabinet can be made up of any political proportion, at the moment all our Cabinet Members come from the majority political party.

Audit & Risk Committee

This Committee **met four times** during the year. Its main purposes are:

- to provide independent assurance of the adequacy of the risk management framework and the associated control environment;
- independent scrutiny of the authority framework and non-financial performance, to the extent that it affects
 the authority's exposure to risk and weakens the control environment; and
- to oversee the financial reporting process.

At our March 2015 meeting, it was agreed that, going forwards that the Audit and Risk Committee would merge with the Standards Advisory Committee to form an Audit and Corporate Governance Committee from the 1st April 2015 onwards.

• Overview & Scrutiny Committee

The Overview & Scrutiny Committee consisted of nine non-Executive members (those who are not members of the Cabinet) and is appointed on a proportional basis (with political groups represented in the same proportion as on the whole Council). It monitored the performance of the Leader and Cabinet and scrutinises services and policies throughout the Borough, and makes recommendations for improvement. During the year, the Committee met seven times and:

- reviewed and noted the Corporate Plan for 2014/15
- considered an update on the progress made in Year 2 of the Transactional Services Centre Partnership and further reviews of progress in-year
- considered a report on progress made on improvements to the Leasehold Service
- consideration was given to the Annual Scrutiny Report 2013/14
- approved the appointment of three Scrutiny Panels
- considered an update on the Leisure Strategy, including details on implementation
- considered the Quarter 1, 2 & 3 Finance and Performance Reports
- considered an update on treasury activity in 2013-14 and the first part of 2014-15 and noted the Treasury Management Strategy and Revenue Budget for 2015/16
- reviewed and noted the Five Year Plan, Medium Term Financial Strategy and Capital Strategy for 2015-2020
- reviewed and noted progress on the Children's Services Transition Project
- discussed the Childhood Obesity review
- considered a report on the Council's Abandoned Vehicles Policy and Procedure

There are also three Scrutiny Panels in addition to the Overview and Scrutiny Committee which focus on the different aspects of the Council's work – Health, Neighbourhoods and Community Services and Education and Children's Services

The Council also has other committees (planning, licensing etc.), but these are not concerned directly with governance arrangements so are not listed here.

Policies

The following table lists the Council's main documents, policies and procedures; we refer to and follow these, to make sure we do things in the right and consistent way. All these policies have been approved by your elected Councillors where required.

VISION, AIMS, APPROACHES AND ACTIONS

In the introduction to this document, the second thing we said we needed was the right plan of action. The Council has agreed a Five Year Plan 2015-2019 which replaces the Corporate Plan. The Plan sets the following overarching **Vision** for the Council:

"Growing a place of opportunity and ambition"

The Plan further outlines the ambition of the Council which, by 2019, is to be:

- A place where people can make good choices about where to live and work and where children can grow
 up to achieve their full potential
- One of the most attractive places to do business in the country, with excellent communications, business accommodation and a skilled, and available workforce

The Plan identifies the challenges and opportunities facing the town, and includes eight outcomes to respond to these opportunities and challenges, along with key actions to deliver the outcomes and measures of success. We have chosen to express our Plan in terms of outcomes supported by actions and success measures that will assist us in delivering our Plan, because we believe that a clear, simple, transparent set of statements provides the best way of establishing and then achieving them, and of being able to monitor performance – all of which is good governance.

The eight outcomes are grouped into the following three themes:

Changing, retaining and growing

- 1. Slough will be the premier location in the south east for businesses of all sizes to locate, start, grow, and stay.
- 2. There will more homes in the borough, with quality improving across all tenures to support our ambition for Slough.
- 3. The centre of Slough will be vibrant, providing business, living, and cultural opportunities.

Enabling and preventing

¹ Further revised in January 2015

² Section 5.7 of Constitution

³ Section 5.5 of Constitution

- 4. Slough will be one of the safest places in the Thames Valley.
- 5. More people will take responsibility and manage their own health, care and support needs.
- 6. Children and young people in Slough will be healthy, resilient and have positive life chances.

Using resources wisely

- 7. The Council's income and the value of its assets will be maximised.
- 8. The Council will be a leading digital transformation organisation.

REPORTING

In the Introduction, we said that we needed the right way of operating (including openly, honestly, efficiently, etc.) so that, as outputs, we deliver the right services, to the right people, at the right price, and the right time. We also mentioned above that "it is standard practice to 'work backwards' and assess the results and performance, and infer that, if these outputs are good, that is a sign that the underlying governance is also working properly. This section reviews how we reported on the results.

Regular reporting

Within our Five Year Plan we have established a number of key performance indicators which we use to measure the performance of the Council during the year. These are reported in the form of a balanced scorecard, which we are in the process of updating in line with the Plan. The following regular reports are received at our Cabinet meetings:

- Five Year Plan (formerly Corporate Plan)
- **Finance and Performance Report:** quarterly reporting on progress against the targets in the Corporate Plan and delivery of performance targets. We also publish detailed revenue and capital expenditure reports each quarter, and include financial forecasts.
- Balanced Scorecard: quarterly performance against the Council's key performance indicators
- Council's Gold Projects Updates: we publish quarterly performance in respect of the delivery of the Council's Gold projects, which are our key strategic projects.
- Financial and Performance Outturn Report: we will publish a report following the year end detailing how we performed against our targets for 2014/15

We publish, annually:

- The **Audit of Accounts**: The format of these is set by accounting regulations. The council's accounts are subject to external audit by BDO. Members of the public and local government electors have certain rights in the audit process.
- An Annual Audit Letter: Every year the council's external auditors, currently BDO, produce an <u>Annual Audit Letter</u>. This letter is a high level summary of the auditors' findings from their work during the previous financial year.

Auditing and monitoring

The Council was subject to auditing and monitoring processes, which were intended to be objective and (where necessary) critical:

• Internal audit: we appointed Baker Tilly to carry out audits on a number of specific areas that we asked them to review. For each area of review, internal audit would typically provide assurance on the policies and procedures in place and the governance arrangements in operation to monitor the performance in that area. For each area a report was issued concluding with an assurance opinion that utilised a 'traffic light' system (red, amber, green) as to how they think each area was doing; and to make recommendations for changes to our procedures and governance arrangements. We then accepted or rejected each of their recommendations. Baker Tilly have provided an Annual Report in which it includes all the areas they reviewed; what 'traffic light' they gave; how many [high/medium/low priority] recommendations they made and which were accepted.

The Head of Internal Audit Opinion for 2014/15 provided a positive opinion on our Risk Management, Governance and Control Framework. Positive assurance opinions were provided in 27 of the 33 audit reports issued in 2014/15 (excluding follow up and advisory reviews). Of the six red assurance opinions issued, three of these were in respect of our processes for contract management issues with the remainder relating to schools. It should also be noted that a number of advisory reviews were undertaken by Internal Audit where significant weaknesses in control were identified and these have been highlighted in the improvements section below. Whilst their overall opinion of the internal control environment is positive, we have identified significant weaknesses in the areas of contract management, VAT and the internal control

environment in a number of schools and appropriate commentary in respect of actions proposed to address these weaknesses is included in the improvements section below.

External audit: The Council's external auditors, BDO, provided an unqualified opinion on the financial statements for the year ended 31 March 2014. However, a qualified opinion was issued on the Council's use of resources and delivery of value for money, due the significant weaknesses in Children's Social Care Services identified by Ofsted since 2011, the further deterioration in such services identified by another Ofsted review in 2014, and the decision of the Department for Education to pursue a transfer of Children's Social Care Services to another body.

Other external assurance sources: Sometimes we are reviewed by external bodies that look at certain services such as OFSTED on Safeguarding, which was an area for inspection in December 2013. This inspection was followed up and an Ofsted inspection report of services for children in need of help and protection, looked after children and care leavers was published in February 2014 with an 'inadequate' rating. This resulted in the Parliamentary Under Secretary of State for Children and Families using intervention powers under section 497A of the Education Act 1996 with respect to the Council's exercise of its children's social services functions, and work on creating this new organisation has taken place throughout 2014/15 and will continue beyond this. In 2014/15 we also were inspected by Ofsted in respect of our Children's Centres, and the outcome of this review is expected shortly.

- Corporate Risk Register: We document our corporate risks within this register which enables the Council
 to monitor how risks are being managed through regular review at the Risk Management Group and CMT.
 The Corporate Risk Register describes and rates each risk in terms of likelihood and consequence. It also
 lists controls mechanisms in place to manage those risks stated and actions to be undertaken to reduce
 the risks. This process has continued into 2014/15.
- Audit recommendation tracker: In 2013/14 we introduced a process of recommendation tracking to
 ensure that recommendations made by our Internal Auditors are implemented in a timely manner. We
 report on the progress in implementating recommendations to the Risk Management Group each meeting.
 This process has continued into 2014/15.

REVIEW OF EFFECTIVENESS

Slough Borough Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of all managers within Slough Borough Council who have responsibility for the development and maintenance of the governance environment.

The following process has been applied in maintaining and reviewing the effectiveness of the governance framework, and includes:

- The work of the Risk Management Group and the Risk Management Strategy
- The annual assurance statements produced by all Heads of Service
- The work of the Audit and Risk Committee
- The work of the Standards Sub-Committee
- The work of Internal Audit
- The work of the Overview and Scrutiny Committee.
- Directors complete an annual assurance statement that is supported by a governance self-assessment completed by each Assistant Director; these are available on request.

We have been advised of the implications of the result of the review of the effectiveness of the governance framework by the Audit and Risk Committee and a plan to address weaknesses and ensure continuous improvement of the system is in place.

ANNUAL ASSURANCE STATEMENTS

As detailed above, in order to provide confirmation that each Directorate within the Council has a sound system of internal control in operation, which in turn helps to manage and control business risk, each Director has been required to complete, certify and return a statement of their Directorate's current position.

Each Director and Assistant Director has been provided with a model format for completion and, in completing the statement, has facilitated the involvement of their Direct Reports to ensure that sufficient input has been obtained to provide a clear and coherent statement of all risk and control issues within any given area. These statements are held by Internal Audit.

IMPROVEMENTS

In the Annual Governance Statement for 2013/14 we identified a number of areas for improvement. The table below lists them, and comments how we did in addressing them in 2014/15.

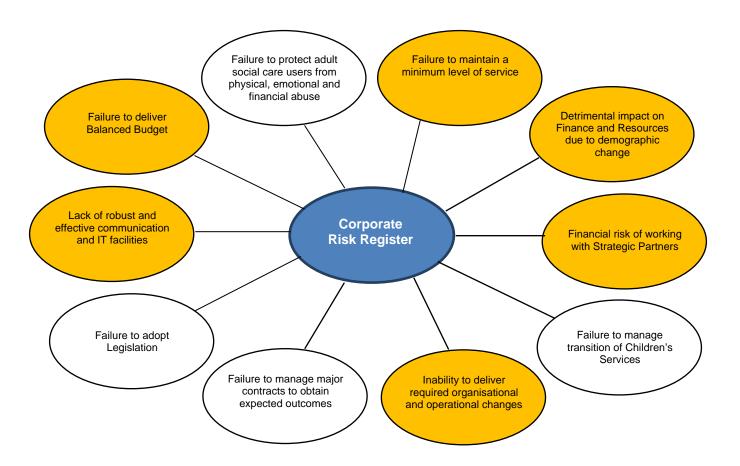

Issues reported in 2013/14 AGS	2014/15 actions taken	Is this an issue for 2015/16 and beyond?
Safeguarding services and Safeguarding outcomes for children and young people (including risk assessments).	Items remain on the corporate risk register; risk remains in Children's Social Care following the Ofsted inspection in December 2013 and the follow up in February 2014.	Yes
	It is anticipated that during 2015/16, a new Children's Services Organisation will be established and we are working with the Commissioner for Children's Social Care to ensure that we minimise any disruption to the provision of services.	
	There is a risk to the Council though over the arrangements that will be put in place to deliver children's services within the new organisation as it will be a totally new entity delivering a core area of Council services.	
Continued Economic Instability and Turbulence at a national level.	Remains on the Corporate Risk Register for 2014-15 and beyond. We have delivered the majority of savings identified for 2014-15 with a break even outturn position and have set a balanced budget for 2015-16.	Yes
	We have regular monitoring of collection rates and anticipated income throughout the year and these have demonstrated improvements from 2013/14.	
Managing a mixed economy workforce.	During the year, further work has been completed to transfer staff to Cambridge Education (in respect of education and children's centres) and to arvato in respect of ICT and Customer Services. The Council continues to monitor performance through metrics to ensure outcomes are met. An Internal audit review, requested by management as part of the 2014/15 plan of the arrangements in place for the ICT and Customer Services identified a number of significant weaknesses in the arrangements in place, and we are developing an action plan to address these.	Yes
Partnership and Governance arrangements	This in part relates to the above risk, though we need to continue to improve partnership governance arrangements in light of the Ofsted report and ensuring close working with partners into the future.	Yes
	In addition, a 2014/15 Internal Audit review into the Governance framework and arrangements in place (for reporting against the 5 Year Plan)	

	provided a positive opinion in relation to the committee structure and reporting framework, although we acknowledge and are putting in place changes to ensure that the work of the Council and its committees is structured around all of the eight outcomes in our 5 Year Plan.	
Risk Management	We have continued to develop our risk management arrangements during 2014/15, working towards implementing the recommendations made in this area by Internal Audit. Whilst we acknowledge that there is further work to be completed, improvements have been made in the processes in place, particularly with regards to developing the role of the Risk Management Group, and in 2015/16 we will be further embedding risk management throughout the organisation and using this to support the delivery of our 5 year plan.	No
Procurement	During 2014/15 we commissioned a further audit of our procurement arrangements from our Internal Auditors, which provided 'some assurance' over the effectiveness of controls in place, identifying a number of areas for further improvement which may in part be addressed through the appointment of a new Assistant Director, who will have responsibility and oversee the Procurement function within the Council.	Yes
Asset Register	During 2014/15 we requested our Internal Auditors to undertake a further review of the controls in place around our asset register, and to identify improvements made from the previous year. Whilst this review concluded that some assurance can be provided over this area, it noted that a number of further improvements were still required.	No
Schools Environment	We continued to commission an extensive programme of Internal Audit reviews around the management of our schools, including re-auditing a number of schools where negative opinions were provided in the previous year. Further audits of schools will take place within 2015/16 to continue to drive forward improvements in internal controls, and to engage further with schools over improving safeguarding arrangements. This process will continue to be actively supported by our Audit and Risk Committee. The Council needs to maximise its progress in respect of school improvement in an increasingly disparate education provision environment.	Yes

Contract Management	This remains a key risk for the Council and continues to be managed by officers and captured on the Strategic Risk Register. In 2014/15 Internal Audit undertook an audit on the monitoring of KPIs for a number of significant contracts and provided a negative (red) assurance opinion. In addition, advisory reviews by Internal Audit on the management of other significant contracts highlighted a number of areas of significant weakness. We have developed action plans in response to these, together with commissioning further Internal Audit reviews as we endeavour to improve our control framework in this area during 2015/16.	Yes
Rent Accounts	Internal Audit undertook an audit in 2014/15 and provided a substantial assurance opinion; demonstrating significant progress had been made in addressing the significant weaknesses identified in 2013/14. Work will continue in 2015/16 in implementing the minor outstanding recommendations made by Internal Audit.	No
E-Learning: Training and Development	Internal Audit undertook an audit on e- learning, and provided a negative (red) assurance opinion, the main issues being the lack of development of the e- learning system and attendance at mandatory training courses during 2013/14. We have developed an action plan in response to the audit and are actively working to ensure full implementation of the recommendations made.	No

Risk Register

The following risks have been highlighted on the Corporate Risk register as at the 31st March 2015, together with the associated residual risk rating (colour coding):

We, the Leader and Chief Executive, undertake over the coming year to continue to monitor our governance arrangements to ensure they remain fit for purpose. We are satisfied that they were effective in 2014/15, and will reflect and report on their operation and effectiveness as part of our next annual review.

STATEMENT OF RESPONSIBILITIES

The Council's Responsibilities

The Council is required:

- To make arrangements for the proper administration of its financial affairs and to secure that one of
 its officers has the responsibility for the administration of those affairs. At Slough Borough Council
 this officer is the Assistant Director of Finance and audit, Joseph Holmes.
- To manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets
- To approve the statement of accounts.

The Section 151 Officer's Responsibilities

The Section 151 Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Council Accounting in the United Kingdom (the Code).

I certify that in preparing this Statement of Accounts, I have:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code;
- kept proper accounting records which were up to date; and
- Taken reasonable steps for the prevention and detection of fraud and other Irregularities.

Certificate of the Section 151 Officer

I certify that the Statement of Accounts set out on the following pages presents a true and fair view of the financial position of the Council as at 31st March 2015 and its income and expenditure for the year ended 31st March 2015.

Joseph Holmes

Assistant Director of Finance and Audit (Section 151 Officer)

Date: 26th June 2015

STATEMENT BY LEAD MEMBER

In accordance with Accounts and Audit Regulation 2011 the Chair of the meeting adopting the Statement of Accounts must sign and date the statement in order to confirm that the adoption process has been completed. I confirm that the Statement of Accounts for the period ended 31 March 2015 was approved at the meeting of Audit and Risk Committee held on .

Councillor Chairman of the Audit and Risk Committee Date:

6. INDEPENDENT AUDITORS REPORT TO THE MEMBERS OF SLOUGH BOROUGH COUNCIL

Draft Opinion on the Council's financial statements

We have audited the financial statements of Slough Borough Council for the year ended 31 March 2015 under the Audit Commission Act 1998. The financial statements comprise the Movement in Reserves Statement, the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Cash Flow Statement, the Housing Revenue Account Income and Expenditure Statement, the Movement on the Housing Revenue Account Statement, the Collection Fund Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15.

This report is made solely to the members of Slough Borough Council in accordance with Part II of the Audit Commission Act 1998 and for no other purpose, as set out in paragraph 48 of the Statement of Responsibilities of Auditors and Audited Bodies published by the Audit Commission in March 2010. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Council and the Council's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Assistant Director of Finance and Audit and auditor

As explained more fully in the Statement of Responsibilities for the Statement of Accounts, the Assistant Director of Finance and Audit is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom, and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Council's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Assistant Director of Finance and Audit; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Statement of Accounts to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the financial position of Slough Borough Council as at 31 March 2015 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/15.

Opinion on other matters

In our opinion, the information given in the Explanatory Foreword for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we report by exception

We have nothing to report in respect of the following other matters which the Code of Audit Practice for Local Government Bodies (March 2010) requires us to report to you if:

• we have been unable to satisfy ourselves that the annual governance statement meets the disclosure requirements set out in the guidance 'Delivering Good Governance in Local Government: a Framework' published by CIPFA/SOLACE in June 2007 or is misleading or inconsistent with other information that is forthcoming from the audit;

- we issue a report in the public interest under section 8 of the Audit Commission Act 1998;
- we designate under section 11 of the Audit Commission Act 1998 any recommendation as one that requires the Council to consider it at a public meeting and to decide what action to take in response; or
- we exercise any other special powers of the auditor under the Audit Commission Act 1998.

Conclusion on the Council's arrangements for securing economy, efficiency and effectiveness in the use of resources

Respective responsibilities of the Council and auditor

The Council is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

We are required under Section 5 of the Audit Commission Act 1998 to satisfy ourselves that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the Audit Commission requires us to report to you our conclusion relating to proper arrangements, having regard to relevant criteria specified by the Audit Commission.

We report if significant matters have come to our attention which prevent us from concluding that the Council has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Council's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our audit in accordance with the Code of Audit Practice, having regard to the guidance on the specified criteria, published by the Audit Commission in October 2014, as to whether the Council has proper arrangements for:

- securing financial resilience; and
- challenging how it secures economy, efficiency and effectiveness.

The Audit Commission has determined these two criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2015.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, the Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

Basis of qualified conclusion

In seeking to satisfy ourselves that the Council has made proper arrangements for challenging how it secures economy, efficiency and effectiveness in its use of resources, we have considered a direction issued to Slough Borough Council by the Secretary of State for Education under section 497A(4B) of the Education Act 1996.

On 7 October 2014 the Secretary of State for Education wrote to the Council about the inadequacies identified by Ofsted and the Office of the Prime Minister (OPM) in Slough Borough Council's Children's Social Care services. The Secretary of State concluded that the Council was failing to provide the following functions to an adequate standard:

- (a) social services functions, as defined in the Local Authority Social Services Act 1970, so far as those functions relate to children;
- (b) the functions conferred on the local authority under sections 23C to 24D of the Children Act 1989 (so far as not falling within paragraph (a) above); and
- (c) the functions conferred on the authority under sections 10, 12, 12C, 12D and 17A of the Children Act 2004.

The Secretary of state therefore proposed:

(a) to appoint a person ('the Commissioner for Children's Social Care') to:

- i. act on behalf of the Secretary of State for the purposes of this direction;
- ii. secure improvement in the Council's performance of its children's social care functions pending the formation of a company ('the Trust') to exercise those functions;
- (b) to establish, or secure that the Commissioner for Children's Social Care establishes, the Trust.

Pursuant to her powers under section 497A(4B) of the Education Act 1996, the Secretary of State directed the Council to:

- (a) comply with any instructions of the Secretary of State or the Commissioner for Children's Social Care in relation to the Council's exercise of its children's social care functions;
- (b) in relation to the establishment, setting up or carrying on of the Trust:
 - i. comply with any instructions of the Secretary of State or the Commissioner for Children's Social Care;
 - ii. provide such assistance to the Secretary of State or the Commissioner for Children's Social Care as they may require; and
 - iii. cooperate fully with the Secretary of State and the Commissioner for Children's Social Care.

Because of the significant weaknesses in children's social care services identified by Ofsted and OPM and the decision of the Secretary of State for Education to direct the Council to transfer children's social care services to a Trust, we have qualified our conclusion on the Council's use of resources.

Qualified conclusion

On the basis of our work, having regard to the guidance on the specified criteria published by the Audit Commission in October 2014, with the exception of the matter reported in the basis for qualified conclusion paragraph above, we are satisfied that in all significant respects Slough Borough Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ending 31 March 2015.

Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate until we have completed the work necessary to issue our assurance statement in respect of the Council's Whole of Government Accounts consolidation pack. We are satisfied that this work does not have a material effect on the financial statements or on our use of resources conclusion.

NOTES TO THE ACCOUNTS

NOTES TO THE CORE FINANCIAL STATEMENTS

NOTE 1 - Statement of Accounting Policies for 2014/15

General Principles

The Statement of Accounts summarises the Council's transactions for the 2014/15 financial year and its position at the year-end of 31 March 2015. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2011, which require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Council Accounting in the United Kingdom 2014/15 and the CIPFA Service Reporting Code of Practice for Local Authorities 2014/15 (SeRCOP), supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

Summary of Significant Accounting Policies

i) Accruals of Income and Expenditure

- Activity is accounted for in the year that it takes place, not simply when cash payments are made or received.
 In particular:
- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of
 ownership to the purchaser and it is probable that economic benefits or service potential associated with the
 transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of
 completion of the transaction and it is probable that economic benefits or service potential associated with the
 transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Where periodic income and expenditure invoices are raised or received during the year and relates to a
 complete financial year no accrual will be made provided the financial affect on the accounts does not change
 the financial position of the council.

Council Tax Income

Council Tax income included in the Comprehensive Income and Expenditure Statement for the year will be the accrued income for that year. Each major preceptor's share of the accrued Council Tax income is available from the information required to be produced in order to prepare the Collection Fund Statement.

Since the collection of Council Tax is in substance an agency arrangement, the cash collected by the billing authority from Council Tax debtors belongs proportionately to the billing authority and the major preceptors. There will therefore be a debtor/creditor position between the billing authority and each major preceptor to be recognised since the net cash paid to each major preceptor in the year will not be its share of cash collected from Council taxpayers. If the net cash paid to a major preceptor in the year is more than its proportionate share of net cash collected from council tax debtors/creditors in the year, the billing authority will recognise a debit adjustment for the amount overpaid to the major preceptor in the year and the major preceptor will recognise a credit adjustment for the same amount to the debtor/creditor position between them brought forward from the previous year.

The cash flow statement includes within operating activities only the Council's own share of Council tax net cash collected from council tax debtors in the year. The cash flow statement of a major preceptor will include within operating activities the net council tax received from the Collection Fund in the year (i.e. the precept for the year plus its share of Collection Fund surplus for the previous year, or less the amount paid to the Collection Fund in

respect of its share of the previous year's Collection Fund deficit). The difference between the net cash received from the Collection Fund and the major preceptor's share of cash collected from council tax debtors by the billing authority in the year will be included within financing activities in the cash flow.

ii) Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in no more than three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

iv) Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e., in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

v) Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding fixed assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible fixed assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisations.

However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance. Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution in the General Fund Balance MRP, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

vi) Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council.

Termination benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the Non Distributed Costs line in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement,

appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post Employment Benefits

Employees of the Council are members of two separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE) and
- The Berkshire Local Government Pensions Scheme, administered by Royal Borough of Windsor and Maidenhead.

Both schemes provided defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council. However, the arrangements for the teachers' scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Council. The scheme is therefore accounted for as if it were a defined contribution scheme and no liability for future payments of benefits is recognised in the Balance Sheet. The Children's and Education Services line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to Teachers' Pensions in the year.

The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme.

- The liabilities of the Berkshire pension fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees.
- Liabilities are measured on an actuarial basis discounted to present value, using the projected unit method.
 The discount rate to be used determined in reference to market yields at balance sheet date of high quality corporate bonds.
- The assets of the Berkshire pension fund attributable to the Council are included in the Balance Sheet at their fair value:
 - o quoted securities current bid price
 - unquoted securities professional estimate
 - o unitised securities current bid price
 - property market value.
- The change in the net pensions liability is analysed into seven components:
 - current service cost the increase in liabilities as a result of years of service earned this year allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked
 - past service cost the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
 - o interest cost the expected increase in the present value of liabilities during the year as they move one year closer to being paid debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
 - expected return on assets the annual investment return on the fund assets attributable to the Council, based on an average of the expected long-term return – credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
 - gains or losses on settlements and curtailments the result of actions to relieve the Council of liabilities or events that reduce the expected future service or accrual of benefits of employees – debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
 - o actuarial gains and losses changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions debited to the Pensions Reserve
 - contributions paid to the Berkshire pension fund cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are

appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

vii) Events after the Balance Sheet Date

Events after the balance sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period the Statement of Accounts is adjusted to reflect such events; or
- those that are indicative of conditions that arose after the reporting period the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

viii) Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified into two types:

- loans and receivables assets that have fixed or determinable payments but are not quoted in an active
 market
- Available-for-sale assets assets that have a quoted market price and/or do not have fixed or determinable payments.

Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line

In the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus

accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains and losses that arise on the de-recognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Available-for-Sale Assets

Available for sale assets are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value.

Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council.

Assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:

- instruments with quoted market prices
- other instruments with fixed and determinable payments discounted cash flow analysis; and
- equity shares with no quoted market prices professional estimate

Changes in fair value are balanced by an entry in the Available-for-sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available-for-sale Financial Assets. The exception is where impairment losses have been incurred – these are debited to the Financial and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available-for-sale Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available-for-sale Reserve. Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses)

ix) Foreign Currency Translation

Where the Council has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective. Where amounts in foreign currency are outstanding at the year-end, they are reconverted at the spot exchange rate at 31 March. Resulting gains or losses are recognised in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

x) Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Account until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ring-fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

xi) Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service lines in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service lines in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance.

xii) Interest in Companies and other entities

The Council has no material interests in companies and other entities that have the nature of subsidiaries, associates and joint operations during the financial year 2014/15, therefore it has no requirement to prepare group accounts. In the Council's own single entity accounts, the interests in companies and other entities are recorded as available for sale assets and carried at fair value.

The Council concluded during a review of its arrangements that the Council's interests in subsidiaries and other entities are not material.

xiii) Inventories and Long Term Contracts

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using the FIFO costing formula.

Long term contracts are accounted for on the basis of charging the Surplus or Deficit on the Provision of Services with the value of works and services received under the contract during the financial year.

xiv) Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's-length. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

xv) Joint Operations

Jointly controlled operations are activities undertaken by the Council in conjunction with other venturers that involve the use of the assets and resources of the venturers rather than the establishment of a separate entity. The Council recognises on its Balance Sheet the assets that it controls and the liabilities that it incurs and debits and credits the Comprehensive Income and Expenditure Statement with the expenditure its incurs and the share of income it earns from the activity of the operation.

Jointly controlled assets are items of property, plant or equipment that are jointly controlled by the Council and other venturers, with the assets being used to obtain benefits for the venturers. The joint venture does not involve the establishment of a separate entity. The Council accounts for only its share of the jointly controlled assets, the liabilities and expenses that it incurs on its own behalf or jointly with others in respect of its interest in the joint venture and income that it earns from the venture.

xvi) Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower).

The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred. Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the

asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g., there is a rent-free period at the commencement of the lease

The Council as Lessor

Finance leases

Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property applied to write down the lease debtor (together with any premiums received), and
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement)

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement.

Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g., there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

xvii) Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice (SerCop). The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core costs relating to the Council's status as a multi-functional, democratic organisation.
- Non Distributed Costs the cost of discretionary benefits awarded to employees retiring early and impairment losses chargeable on Assets Held for Sale.

These two cost categories are defined in SerCop and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Expenditure on Continuing Services.

xviii) Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e., repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e., it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction depreciated historical cost
- dwellings fair value, determined using the basis of existing use value for social housing (EUV-SH)
- all other assets fair value, determined as the amount that would be paid for the asset in its existing use (existing use value EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

• where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)

Where there is no balance in the Revaluation reserve or an insufficient balance, the carrying amount of the
asset is written down against the relevant service Lines(s) in the Comprehensive Income and Expenditure
Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated in the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service lines in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service lines in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e., freehold land and certain Community Assets) and assets that are not yet available for use (i.e., assets under construction). Deprecation is calculated on the following bases:

- dwellings and other buildings housing dwellings- 46 years for houses, 42 years for flats, operational buildings 1-60 years as determined by the valuer, car parks 60 years
- vehicles, plant and equipment straight-line allocation over five years
- Infrastructure straight-line allocation over 40 years.

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Component accounting

Where an asset comprises two or more major components with substantially different useful economic lives, each component is accounted for separately for depreciation purposes and depreciated over its individual useful life. The requirement for componentisation for depreciation purposes is only applicable to enhancement, purchases or revaluations after 1 April 2010.

The Council's policy has defined a component as such part of an item of Property, Plant and Equipment (PP&E) with a cost that is significant in relation to the total cost of the item, if the value of the component is 10% or more of the total gross carrying value of the building. The Council has also determined that any building with a gross carry amount of less than £1m, useful economic life of less than 15 years or both will not be considered for component accounting.

Where there is more than one significant part of the same asset which has the same useful life and depreciation method such parts will be grouped in determining the depreciation charge.

xix) Private Finance Initiative (PFI) and Similar Contracts

PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the Council is deemed to control the services that are provided under its PFI schemes, and as ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

Non current assets recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the Council. The amounts payable to the PFI operators each year are analysed into five elements:

- fair value of the services received during the year debited to the relevant service in the Comprehensive Income and Expenditure Statement
- finance cost interest is charged on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- contingent rent increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- payment towards liability applied to write down the Balance Sheet liability towards the PFI operator (the profile of write downs is calculated using the same principles as for a finance lease)
- lifecycle replacement costs proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out.

xx) Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

A provision for the best estimate of the amount that businesses have been overcharged up to 31st March 2015 in relation to Business Rates. The estimate has been calculated using the latest Valuation Office (VAO) ratings list of appeals and an analysis of successful appeals to date when providing the estimate of the total provision up to and including 31st March 2015.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be

made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential

xxi) Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

xxii) Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

xxiii) VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

xxiv) Local Asset Backed Vehicles

The Council is a member of two limited liability partnerships (LLPs), in which it holds 50% interest, the remaining interest being held by a private sector partner. Both LLPs fall under the definition of "joint ventures" as defined by IFRS 11 "Accounting for joint arrangements"

The Council has accounted for its interests in the joint ventures using equity accounting as defined IAS 28 'Investments in Associates and Joint ventures' and complied with IFRS 12 'Disclosure of Interests in Other Entities' which sets out the disclosure requirements for joint arrangements.

Note to the Accounts:

Local Asset Backed Vehicles

<u>Slough Regeneration Partnership LLP</u>
The Council is one of two members of a limited liability partnerships (LLPs), trading as Slough Regeneration Partnership LLP (SRP LLP). It has a 50% interest in the LLP, the remaining interest being held by the other member, a private sector construction services business. Both members have £100 equity stake in the LLP.

SRP LLP was set up to undertake development of commercial building projects in the area of Slough Borough Council on land owned by the authority to assist in achieving social and economic objectives.

When a development is selected to take place, the private sector member funds the up front design work and submits a planning application, contributing to the private sector's investment in the LLP. Once the development has secured planning permission and is ready to commence the Council will transfer the land or property to the LLP. The land is transferred based on its residual value with the benefit of planning permission (i.e. the gross development value minus the costs and profit). The development will then take place with the private sector partner matching the residual value of the land invested by the Council less the sums spent by the private sector partner undertaking the design and securing the planning permission. The additional funding required to build out the development will then be sourced from third party lenders and/or from the LLP members.

When completed the development is sold, the proceeds will first be used to repay any debt, and any surplus generated will be available to be distributed between the members.

As at 31 March 2015 no development had been started by the LLP and no property had been transferred by the Council. It is expected that land at Ledgers Road will be transferred in July 2014, with construction commencing in July 2015.

Slough Regeneration Partnership Community Projects LLP

SRP LLP has a 100% owned Limited company; with whom it shares equally 100% share in a LLP development subsidiary trading as Slough Regeneration Partnership Community Projects LLP (SRP CP LLP). Thus, both the private sector member and the Council effectively hold 50% interest each in SRP CP LLP.

SRP CP LLP was set up to provide construction services to Slough Borough Council, for the development of community projects such as leisure centres and libraries. The first community project began on-site construction in January 2014, being the construction of the new library in Slough town centre, known as The Curve. The building is expected to be completed in October 2015.

The Council and the private sector partner are both represented equally on the management board of the LLPs, hence no member has overall operational control.

Summarised Financial Information

The following information summarises the consolidated position of SRP LLP and SRP CP LLP, its fully owned subsidiary. The LLPs' financial year ends on 31 December.

2014 was the first full year of trading. Financial activity commenced in June 2013 for SRP CP LLP and August 2013 for SRP LLP.

The following information and applicable entries in the Council's accounts have combined the results of the audited financial statements to the period to 31 December 2014 with the LLP's internal trading results to 31 March 2015, to coincide with the Council's 12 month trading period. A linear apportionment of costs and income has been taken.

NOTE 1a Prior Period Adjustments

Slough has the following types of maintained schools:

- Community
- Foundation
- Voluntary Controlled
- Voluntary Aided.

Currently Community Schools (including those funded by the Private Finance Initiative), are included on Slough Borough Council's Balance Sheet. However voluntary controlled, voluntary aided and foundation schools were previously excluded. During 2014-15, the council undertook a review of its Voluntary Aided, Voluntary Controlled and Foundation Schools on the basis of a change in accounting guidance. An asset is defined as "a resource controlled by the authority as a result of a past event from which future economic benefits or service potential are expected to flow from the authority."

However ownership is not essential. Thus a property held on lease is an asset if the entity controls the benefits which are expected to flow from the asset. An asset therefore requires the entity recognising it, in this case a school, to have control of that resource, based on rights that are either legal or substantive. Usage of the asset without such rights does not demonstrate control.

On the basis of the review, it was decided that the Voluntary Aided and Voluntary Controlled Schools did not meet the definition of control needed for the council to account for them in its Balance Sheet. However two Foundation Schools were brought onto the council's Balance Sheet in 2014-15. The 2013-14 accounts were also restated and the following table shows the impact of the value of fixed assets held in the council's balance sheet in 2013-14.

1st April 2013 Value £000s	2013-14 Depreciation £000s	Value as at 31st March 2014 £000s
5,531	(120)	5,411

A corresponding credit of £5,411k was also made to the Council's Capital Adjustment Account, and the 2013-14 Comprehensive Income and Expenditure Statement (CIES) was also restated to include the extra depreciation charged.

NOTE 2: ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The Code of Practice on Local Council Accounting in the United Kingdom requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted.

The following standards have been issued that will be adopted by the code in 2015/16 and will be applicable to the Council from 1 April.

IFRS 13 Fair Value Measurement. This introduces a requirement for the concept of fair value measurement to be applied to all assets and liabilities which use fair value as a measurement basis. In respect of property, plant and equipment the only change is in the valuation of surplus property. Currently surplus property is valued at existing use value before being reclassified as surplus assets. In future surplus assets will be valued at fair value.

IFRIC 21 Levies. This standard provides guidance on levies imposed by government in the financial statements of entities paying the levy. The IFRIC clarifies the recognition point for payment of levies as the activity which triggers the payment of the levy. This standard will not have a material impact on the Statement of Accounts.

The code requires implementation from 1 April 2015 and there is therefore no impact on the 2014/15 Statement of Accounts

NOTE 3: CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events.

The following are significant management judgements in applying the accounting policies of the Council that have the most significant effect on the financial statements:

- (a) There is a high degree of uncertainty about future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.
- (b) The Council is a trustee of Slough Community Leisure trust a not for profit organisation that operates the leisure centres owned by the Council. The agreement between the Council is set to run until 31st May 2017. It has been determined that the Council does not have control of the Trust and it is not an associate of the Council.
- (c) Schools Non-Current Assets The Council recognises Schools in line with the provisions of the 2014/15 Code of Practice, and schools are recognised on the balance sheet only if the future economic benefits or service potential associated with the school will flow to the Council. The Council regards that the economic benefits or service potential of a school flows to the Council where the Council has the ability to employ the staff of the school and is able to set the admission criteria. There are currently 5 types of schools within the Council:
- Community schools Community schools' staff are appointed by the Council and the Council sets the admission criteria. These schools are, therefore, recognised on the Council's Balance Sheet.
- Voluntary controlled (VC) and voluntary aided (VA) schools Voluntary controlled and voluntary aided schools'
 staff are also appointed by the Council and the Council sets the admission criteria. However, the legal
 ownership of the school land and buildings belongs to a charity, normally a religious body. The Council
 considers that it does not receive the economic benefit/service potential of the school and the schools are not
 recognised on the Council's Balance sheet.
- Academy Schools Academy schools staff are appointed by the schools' governing body, who also set the
 admission criteria. Therefore, the Council does not receive the economic benefit or service potential of these
 schools and does not recognise them on the Council's balance sheet.
- Foundation Trust schools These schools are, therefore, recognised on the Council's Balance Sheet.
- (d) Recognition of Government Grants and Contributions Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that the Council will comply with the conditions attached to the payments and the grants or contributions will be received. Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ring fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement. The Council has made a judgement that a grant or contribution will not be classed as conditional where it not ring fenced and there is therefore a reasonable expectation that it will be spent, even if the grant terms include a repayment clause that require that the grant monies will be repaid if not used.
- (e) Capital commitments disclosures The Council has included those projects which it believes it is committed to based on its capital strategy programme, which is approved by the capital strategy board, although not all of these projects are subject to contractual agreements at year end.

NOTE 4: ASSUMPTIONS MADE ABOUT FUNDING AND OTHER SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31 March 2015 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	The total depreciation charged in 2014/15 is £15.0m and the net book value of property, plant and equipment at 31 March 2015 is £668.5m. If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls.
	Assets are revalued on a 5 year rolling programme and year end reviews of impairment and material changes are obtained from the valuer. The Council does not adjust for price indices between formal valuations unless there is indication of material changes. Evaluating whether an asset is impaired or if impairment should be reversed requires a high degree of judgement and may depend to a large extent on the selection of key assumptions about the future use. Assets/properties are assessed for impairment when facts and circumstances suggest that the carrying amount of the asset may exceed its recoverable amount, and at least annually.	£41.95m revaluation increases have been credited to the revaluation reserve and £11.4m revaluation increases/impairment reversals have been credited to the deficit on provision of services in 2014/15
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	The effects on the net pension's liability of changes in individual assumptions can be measured. These are set out in Note 40.

NOTE 5: MATERIAL ITEMS OF INCOME AND EXPENSE

The Council has derecognised non current assets relating to 2 schools that became academies during 2014/15. This has resulted in a loss on de-recognition of property, plant and equipment of £10.2m which is included in other operating expenditure in the Comprehensive Income and Expenditure statement (Note 9).

NOTE 6: EVENTS AFTER THE BALANCE SHEET DATE

The new Children's Service Organisation is due to commence operating Children's Social Care services in autumn 2015 following a directive from the Department for Education. These new arrangements are, at the time of the Financial Statements being signed, in the process of being clarified, and due for approval later in the 2015-16 financial year. The implication of the new organisation and its transition arrangements on the 2014-15 financial statements are likely to be limited as operations will not start until the next financial year and it unlikely that, though work has been completed on the creation of the new organisation during 2014-15, there will be any material transactions in respect of the new organisation during this financial year.

On 8 July 2015 the UK chancellor announced a number of proposals that will impact on housing authorities including a change to the convergent rents formula that will be replaced with a formula that requires a 1% decrease in rents each year, for four years, commencing from 1 April 2016. This event occurred after the balance sheet date and does not provide additional information about, nor represent a change in, conditions that existed at that date. Therefore, in accordance with International Accounting Standard 10 "Events after the reporting period", the Government's budget statement is a non-adjusting post balance sheet event. The financial statements do not

reflect the possible financial consequences of this matter. As per accounting policy, the Council carries its social housing properties at valuation. This valuation is determined as the Existing Use Value – Social Housing (EUV-SH). EUV-SH takes into account that the Council has committed to use the housing assets for social housing purposes and so represents a lower value than would be applied to comparable housing in the private sector. Overall it is expected that Government's intentions will lead to a revaluation loss to be recognised in the 2015/16 financial statements, however, until further details of the intentions are made available the Council has been unable to determine the specific details of the financial impact.

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2014

Note 12 Property, Plant and Equipment

Capital Commitments

At 31 March 2015, the Council has committed to projects for the construction or enhancement of Property, Plant and Equipment in 2015-16 and future years budgeted to a cost of £46.628m (31 March 2014 £33.062m). The major commitments at 31 March 2015 are:

	£,000
- The Curve	9,443
- Schools Primary Extension	6,593
- Schools Modernisation	3,068
- Cemetery Extension	1,499
- New Ice	3,550
- Windsor Road Widening LEP	4,373
- Crematorium Project	2,081
- Affordable Housing	9,765
- Slough Mass Rapid Transit	3,600
- Housing Subsidiary	4,570
Total	48,542

Effects of Changes in Estimates

There were no material changes in accounting estimates for property, plant & equipment during the year.

Impairments

The Council has no recognised impairment losses in 2014/15 (2013/14 £nil).

Revaluations

The freehold and leasehold properties comprising the Council's operational and non-operational property portfolio at the 1st April 2014 are valued on a rolling programme basis. The valuations for 2014/15 were carried out by external valuers Wilkes Head and Eve. Additionally the value of properties held at open market value were reviewed at 31st March 2015 to reflect the current economic conditions. The Valuer has adopted valuation assumptions in order to arrive at valuation results. These assumptions included the relevant valuation definitions as required by the Code. The RICS defined valuation methods are:

- Market Value
- Existing Use Value
- Fair Value

Where specialised property is valued, the use of depreciated replacement cost to arrive at Existing Use Value has been employed. Depreciated Replacement Cost is RICS defined valuation methodology and used as a method of arriving at Existing Use Value.

The following table shows the progress of the Council's rolling programme for the revaluation of Council Dwellings, land and buildings at 31 March 2015

			Plant / Vehicles			Surplus	Assets Under	
Description	Council Dwellings	Land & Buildings	/ Equipment	Infrastructure	Community	Assets	Construction	Total

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 14 Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets include purchased software licenses.

The carrying amount of intangible assets is amortised on a straight-line basis. The amortisation of £44k (£36k in 2013/14) charged to revenue in the current year was charged to the IT Administration cost centre and then absorbed as an overhead across all the service headings in the Net Cost of Services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Authority. The useful lives assigned to the major software suites used by the Council are

Useful Lives	Other Assets
5 years	Civica and Oracle Software Licenses

In accordance with the CIPFA Code leased intangible assets are disclosed in this section after their initial recognition.

The Movement in Intangible Assets for the Year is as Follows

		-	2014/15			2013/14
	Software Licenses	Other Assets	Total		Other Assets	Total
	£000	£000	£000	£000	£000	£000

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 15 Financial Instruments

Fair Values of Assets and Liabilities

Financial assets classified as loans and receivables and all non-derivative financial liabilities are carried in the Balance Sheet at amortised cost. Their fair values have been estimated by calculating the net present value of the remaining contractual cash flows at 31 March 2014, using the following assumptions:

- PWLB loans have been discounted at the published interest rates for new certainty rate loans arranged on 31 March
- other long-term loans and investments have been discounted at the market rates for similar instruments on 31 March
- no early repayment or impairment is recognised
- the fair value of short-term instruments, including trade payables and receivables is assumed to approximate to the carrying amount.

Financial Assets: Loans and Receivables

	31-M	Mar-15	31-Mar-14		
	Carrying amount	Fair value	Carrying amount	Fair value	
	£000	£000	£000	£000	
Investments	76,126	76,261	57,177	57,177	
Cash and cash					
equivalents	4,211	4,211	32,377	32,377	
Debtors	7,389	7,389	14,060	14,060	
Total financial assets	87,726	87,861	103,614	103,614	

Financial Liabilities at amortised cost

	31-N	Mar-15	31-Mar-14		
	Carrying amount	Carrying amount Fair value		Fair value	
	£000	£000	£000	£000	
Borrowings	(182,848)	(202,196)	(182,868)	(172,584)	
Other Liabilities	(49,584)	(71,055)	(48,349)	(48,349)	
Creditors	(26,647)	(26,647)	(37,965)	(37,965)	
Total financial					
liabilities	(259,079)	(299,898)	(269,182)	(258,898)	

The fair value of borrowings is lower than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is lower than the prevailing rates at the Balance Sheet date.

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 16 Inventories

In undertaking its work the Council holds reserves of stock together with amounts of uncompleted work (work in progress).

The figure shown in the Balance Sheet may be subdivided as follows:

	31/3/15	31/3/14
	£000	£000
Central Stores	5	5
Total	5	5

Note 17 Debtors

	Long Term	n Debtors	Short Term Debtors		
	31/3/15	31/3/15 31/3/14		31/3/14	
	£000	£000	£000	£000

Other Local Authorities	0	7	1,074	5,943	
NHS Bodies	0	0	419	264	
Other entities and individuals	236	254	17,290	13,880	
Total	236	261	25,646	25,493	

Note 18 Cash and Cash Equivalents

For the purposes of the cash flow statement, cash and cash equivalents include cash on hand and in bank and short term deposits and investments (considered to be cash equivalents), net of outstanding bank overdrafts.

Cash and cash equivalents at the end of the reporting period as shown in the statement of cash flows can be reconciled to the related items in the Balance Sheet as follows:

	31/3/15	31/3/14
	£000	£000
Cash and Bank balances	4,015	6,821
Short Term Investments	0	0
Short Term Deposits	5,562	31,700
Bank Overdraft	(2,366)	(6,144)
Total Cash and Cash Equivalents	7,211	32,377

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement. The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 7 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. Slough Borough Council uses the Account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax. In Slough's case, this period is the unexpired term that was outstanding on the loans when they were redeemed.

accordance with statutory requirements	400	456
Balance at 31 March	(2,376)	(2,776)

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment.

The balance is reduced when assets with accumulated gains are:

- · revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2014/15	2013/14

Balance at 31 March	129,367	100,040

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2014/15	2013/14

Employers pensions contributions and direct payments to pensioners payable in the year	7,679	7,532
Balance at 31 March	(225,714)	(169,659)

Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of noncurrent assets but for which cash settlement has yet to take place. Under statutory arrangements, the Authority does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

	2014/15	2013/14

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 27 Amounts Reported for Resource Allocation Decisions

The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the Service Reporting Code of Practice. However, decisions about resource allocation are taken by the Council's cabinet on the basis of budget reports analysed across directorates. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- No charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged to services in the Comprehensive Income and Expenditure Statement)
- the cost of retirement benefits is based on cash flows (payment of employer's pension contributions) rather than current service cost of benefits accrued in year. expenditure on some support services is budgeted for centrally and not charged to directorates.

The income and expenditure of the council's directorates recorded in the budget reports for the year is as follows:

2014/15	Wellbeing (Including Schools)		Resources Housing and Regeneration		Corporate	Total
	£000	£000	£000		£000	£000
Fees, charges & other service income	32,357	9,879	10,302	1,099	3,236	56,873

External Audit Fees Note 32

The Council has incurred the following costs relating to the annual audit of the Statement of Accounts, certification of grant claims and other services provided by the Councils external auditors.

	2014/15	2013/14
	£000	£000
Fees payable with regard to external audit	170	196
services carried out by the appointed		
auditor for the year		
Less Rebate from Audit Commission	0	-23
Fees payable for the certification of grant	32	35
claims and returns for the year		
Fees payable in respect of other services	0	0
provided during the year		
	202	208

There were no other fees payable in respect of any other services provided by the appointed auditor over and above those described above.

In 2013/14 the Council received a rebate of £23k (2012/13 £18k) from the Audit Commission. This relates to the Audit Commission's Retained Earnings distribution as announced 25 March 2014.

Note 33 **Dedicated Schools Grant**

The Authority's expenditure on schools is funded primarily by grant monies provided by the Department for Education, the Dedicated Schools Grant (DSG). DSG is ring fenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance (England)
Regulations 2011. The Schools Budget includes elements for a range of educational services provided on an authority-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2014/15 are as follows:

	Central	Individual

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 35 Related Parties

The Council has a wholly owned subsidiary, Development Initiative for Slough Housing (DISH). Two councillors and an officer sit on the DISH board.

The Council has two pooled budget agreements, transactions and balances outstanding are detailed in Note 28. The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council

Central government has significant influence over the general operations of the Council – it is responsible for providing the statutory framework, within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. Council Tax bills, housing benefits). Grants received from government departments are set out in the subjective analysis in Note 27 on reporting for resources allocation decisions.

Members of the Council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2014/15 is shown in note 35.

Three Officers and two members have sat on the board of the Slough Regeneration Partnership (SRP) during 2014-15. The SRP is a Limited Liability Partnership the council has entered into with Morgan Sindall Investments to build a new library, leisure facilities, schools and homes in Slough. The development's first phase will feature The Curve - a brand new library, cultural and community centre in the heart of the town. Expenditure on the construction of The Curve in 2014-15 was £6,726k.

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 36 Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI/PP contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note

Capital Expenditure and Capital Financing	2014/15 £000	2013/14 £000
Opening Capital Financing Requirement	287,312	282,465

No contingent rentals were recognised as an expense in the CIES during the reporting period under review, and no future sub-lease income is expected to be received, as all assets are used exclusively by the council.

The lease agreements for the vehicles and IT equipment include fixed lease payments and a purchase option at the end of the respective lease terms. The agreements are non-cancellable but do not include any further restrictions.

Future minimum finance lease payments at the end of each reporting period under review are as follows:

	Within 1 year	1 to 5 years	After 5 years	Total
	£000	£000	£000	£000

No later than 1 year	2,356	587
Later than 1 year and no later than 5	4,256	1,831
years		
Later than 5 years	5,867	1,995
	12,479	4,413

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 38 Service Concession Arrangements

Accounting Policy

During 2006/07, the Council entered into a Private Finance Initiative contract for the design, build and operation of three schools. Penn Wood School became operational on 26th February 2007, Beechwood and Arbour Vale schools becoming operational from 3rd September 2007. The contract period is for 28 years. Under IFRS the assets are recognised as Property Plant and Equipment on the Balance Sheet and are subject to revaluation every five years (as part of the normal valuation of fixed assets). The assets are subject to depreciation and impairment as normal assets. The initial cost under the contract for the design and build element is recognised on the Balance Sheet. This is being written down over the life of the contract as payments are made under the contract. The Council is committed to make total payments of £229.3m over the life of the contract. The annual payments are split into three elements. The capital costs are paid against the liability for the purchase costs, interest is charged against the interest payable account with the service element charged to Education expenditure in the Comprehensive Income and Expenditure Statement.

		Reimbursement		
	Payment for	of Capital		
	Services	Expenditure	Interest	Total
	£000	£000	£000	£000
Current Year	1,963	923	3,257	6,143
Previous Year	1,923	846	3,312	6,081

The Council makes an agreed payment each year which is increased each year by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but which is otherwise fixed. Payments remaining to be made under the PFI contract at 31 March 2015 (excluding any estimation of inflation and availability/performance deductions) are as follows:

	2013/14					2014	/15	
	Reimbursement					Reimbursement		
Payment for	of Capital				Payment for	of Capital		
Services	Expenditure	Interest	Total		Services	Expenditure	Interest	Total
£000	0	0	£000		£000	£000	£000	£000
1,962	924	3,257	6,143	Payable within one	2,016	995	3,194	6,205
			·	year				
9,416	3,635	12,163	25,214	Payable within two	9,594	3,953	11,932	25,479
				to five years				
14,165	5,832	13,088	33,085	Payable within six to	14,431	6,322	12,705	33,458
				ten years				
15,884	8,734	10,424	35,042	Payable within	16,245	9,426	9,792	35,463
				eleven to fifteen				
				vears				
16,133	13,941	7,181	37,255	Payable within	16,672	14,999	6,061	37,732
				sixteen to twenty				
				vears				
5,083	5,398	1,179	11,660	Payable after twenty	1,722	1,845	351	3,918
				years				
62,643	38,464	47,292	148,399	Total	60,680	37,540	44,035	142,255

Although the payments made to the contractor are described as unitary payments, they have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred and interest payable whilst the capital expenditure remains to be reimbursed. The liability outstanding to pay the contractor for capital expenditure incurred is as follows:

Current Year	2014/15			
	Council Dwellings	Land	Buildings	Total PP&E and intangible assets
	£000	£000	£000	£000
Balance outstanding at start of year	0	0	38,463	38,463

Balance outstanding at year-end	0	0	38,463	38,463

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 39 Pensions Schemes Accounted for as Defined Contribution Schemes

Teachers

The scheme is a defined benefit scheme, administered by the Teachers' Pension Agency (TPA).

Although the scheme is unfunded, the TPA uses a notional fund as the basis for calculating the employer's contribution rate paid by Local Education Authorities (LEAs). However it is not possible for the Council to identify a share of the underlying liabilities in the scheme attributable to its own employees. For the purposes of this statement of accounts it is therefore accounted for on the same basis as a defined contribution scheme.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These benefits are fully accrued in the pensions liability described above.

In 2014/15, the Council paid £3.152m to Teachers' Pensions in respect of teachers' retirement benefits, representing 14.1% of pensionable pay. The figures for 2013/14 were £3.497m and 14.1%. There were no contributions remaining payable at the year-end.

Note 40 Defined Benefit Pension Schemes

Retirement Benefits

Participation in the Local Authority Pension Scheme

As part of the terms and conditions of employment of its officers, the Authority makes contributions towards the cost of post-employment benefits within the Local Government Pension Scheme. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Authority participates in two post-employment schemes:

- (i) The Local Government Pension Scheme, administered locally by Royal Borough of Windsor and Maidenhead Council this is a funded defined benefit final salary scheme, meaning that the Authority and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with investment assets.
- (ii) Arrangements for the award of discretionary post-retirement benefits upon early retirement this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However there are no investment assets built up to meet these liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

The Berkshire pension scheme is operated under the the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the pensions committee of Royal Borough of Windsor and Maidenhead Council. Policy is determined in accordance with the Public Service Pensions Act 2013.

The principal risks to the Authority of the scheme are the longevity assumptions, statutory

Transactions relating to Post-Employment Benefits

The Authority recognises the cost of retirement benefits in the reported cost of service when they are earned by employees, rather than when the benefits are eventually paid as pensions.

However, the charge the Authority is required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund [and Housing Revenue Account] via the Movement on Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund balance via the Movement in Reserves Statement during the year:

Basis for estimating assets and liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in the future years dependent on assumptions about mortality rates, salary levels, etc.

The Local Government Pension Scheme have been assessed by Barnett Waddingham, an independent firm of actuaries, estimates for the Bershire Local Government Pension Fund being based on the latest full valuation of the scheme as at 1 April 2013.

The significant assumptions used by the actuary are set out below:

	Local Governme Schem	
	2014/15	2013/14
Mortality assumptions:		
Longevity at 65 current pensioners:		
Men	22.8	22.7
Women	26.1	26.0
Longevity at 65 for future pensioners:		
Men	25.1	24.9
Women	28.4	28.3
Financial assumptions:		
Rate of inflation	3.3%	3.6%
Rate of increase in salaries	4.3%	4.6%
Rate of increase in pensions	2.5%	2.8%
Discount Rate	3.4%	4.5%

The estimation of the defined benefit obligation is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes to the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The longevity assumptions, for example, assume that life expectancy increases or decreases for men and women. In practice this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	Impact on the Defined Benefit Obligation in the Scheme	
	Increase in	Decrease in
	assumption	assumption
	£000	£000
Longevity (increase or decrease in one year)	410,470	440,291
Rate of increase in salaries (increase or decrease by 1%)	426,143	424,490
Rate of increase in pensions and deferred revaluation (increase or decrease by 0.1%)	432,563	418,202
Rate for discounting liabilities (increase or decrease by 0.1%)	417,455	433,330

Impact on the Authority's cashflows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 3 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2017.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

The Authority anticipates to pay £7,283K expected contributions to the scheme in 2015/2016.

The weighted average duration of the defined benefit obligation for scheme members is 22 years (22 years 2013/14)

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 41 Nature and Extent of Risks Arising from Financial Instruments

Financial Instruments - Risks

The Council has adopted CIPFA's Code of Practice on Treasury Management (and subsequent amendments) and complies with The Prudential Code for Capital Finance in Local Authorities (both revised in November 2011).

As part of the adoption of the Treasury Management Code, the Council approves a Treasury Management Strategy before the commencement of each financial year. The Strategy sets out the parameters for the management of risks associated with Financial Instruments. The Council also produces Treasury Management Practices specifying the practical arrangements to be followed to manage these risks.

The Treasury Management Strategy includes an Annual Investment Strategy in compliance with the CLG Investment Guidance for local authorities. This Guidance emphasises that priority is to be given to security and liquidity, rather than yield. The Council's Treasury Strategy, together with its Treasury Management Practices are based on seeking the highest rate of return consistent with the proper levels of security and liquidity.

The main risks covered are:

- Credit Risk: The possibility that one party to a financial instrument will fail to meet its contractual obligations, causing a loss for the other party.
- Liquidity Risk: The possibility that the Council might not have the cash available to make contracted payments on time.
- Market Risk: The possibility financial loss will materialise because of changes in market variables such as interest rates or equity prices.

Credit Risk: Investments

The Council manages credit risk by ensuring that investments are only placed with organisations of high credit quality as set out in the Treasury Management Strategy. These include commercial entities with a minimum long-term credit rating of A-, and other local authorities without credit ratings. Recognising that credit ratings are imperfect predictors of default, the Council has regard to other measures including credit default swap and equity prices when selecting commercial organisations for investment.

A limit is placed on the amount of money that can be invested with a single counterparty. The Council also sets a total group investment limit for institutions that are part of the same banking group. No more than £30M in total can be invested for a period longer than one year.

It must also be noted that although credit ratings remain a key source of information, the Council recognises that they have limitations and investment decisions are based on a range of market intelligence. All investments have been made in line with the Council's Treasury Management Strategy Statement for 2014/15, approved by Full Council on 18 February 2014 and can be accessed with the link below:

The table below summarises the nominal value of the Council's investment portfolio and shows that all deposits outstanding as at 31st March 2015 met the Council's credit rating criteria at that date:

Counter Party	Credit Rating Criteria Met When Investment Placed?	Credit Rating Criteria Met on 31.3.2015	Balance Invested as at 31st March 2015			Total

Liquidity risk

The Council has ready access to borrowing at favourable rates from the Public Works Loan Board and other local authorities, and at higher rates from banks and building societies. There is no perceived risk that the Council will be unable to raise finance to meet its commitments. It is however exposed to the risk that it will need to refinance a significant proportion of its borrowing at a time of unfavourably high interest rates. This risk also includes Market LOBO loans where the lender can exercise its option to vary the rate of interest payable and if so, the Council may wish to exercise its option to repay the loan outstanding. This risk is managed by maintaining a spread of fixed rate loans and ensuring that no more than 30% of the Council's borrowing matures in any one financial year. It is also the Council's strategy that no more than £30m of deposits is placed for a period maturing beyond 364 days.

Maturity Structure of borrowing

	Years	31-Mar-15 £'000	% of Total Debt	31-Mar-14 £'000	% of Total Debt
< 1 year		13,000	7.13%	4,000	2.19%
1 to 2 yrs		4,000	2.19%	9000	4.94%
2 to 5 yrs		3,001	1.65%	7,000	3.84%
5 to 10 yrs		18,000	9.87%	18,000	9.87%
10-15 yrs		25,508	13.99%	30,522	16.74%
15-20 yrs		30,022	16.46%	25,000	13.71%
20-25 yrs		53,000	29.06%	53,000	29.06%
25-30yrs		35,841	19.65%	35,841	19.65%
	-				
Total	=	182,372	100.00%	182,363	100.00%

The table above excludes accrued interest.

Market Risks: Interest Rate Risk

The Council is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the authority. For instance, a rise in interest rates would have the following effects:

- borrowings at variable rates the interest expense will rise
- borrowings at fixed rates the fair value of the liabilities borrowings will fall
- · investments at variable rates the interest income credited will rise
- investments at fixed rates the fair value of the assets will fall.

Investments classed as "loans and receivables" and loans borrowed are not carried at fair value, so changes in their fair value will have no impact on Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services. Movements in the fair value of fixed rate investments classed as "available for sale" will be reflected in Other Comprehensive Income and Expenditure.

The Treasury Management Strategy aims to mitigate these risks by setting upper limits of 50% on external debt that can be subject to variable interest rates. At 31 March 2015, 87.39% of the debt portfolio was held in fixed rate instruments and 12.61% in variable rate or LOBO instruments.

If all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

	31/03/15	31/03/14
	£000	£000
Increase in interest payable on variable rate borrowings	230	230
Increase in interest receivable on variable rate investments	(261)	(316)
Increase in government grant receivable for financing costs	0	0
Impact on Surplus or Deficit on the Provision of Services	(31)	(86)
Share of overall impact debited to the HRA	0	260
Decrease in fair value of fixed rate investment assets	295	152
Impact on Other Comprehensive Income and Expenditure	0	0
Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	0	0

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Market Risks: Price Risk

The Council does not invest in any other equity shares and therefore is not subject to equity price risk.

Market Risks: Foreign Exchange Risk

The Council has no financial asset or liabilities denominated in a foreign currency. It therefore has no exposure to loss arising as a result of adverse movements in exchange rates.

Note 42 Contingent Liability

The new Children's Service Organisation is due to commence operating Children's Social Care services in Autumn 2015 following a directive from the Department for Education. These new arrangements are, at the time of the Financial Statements being signed, in the process of being clarified, and due for approval later in the 2015-16 financial year. The implication of the new organisation and its transition arrangements on the 2014-15 financial statements are likely to be limited as operations will not start until the next financial year and it unlikely that, though work has been completed on the creation of the new organisation during 2014-15, there will be any material transactions in respect of the new organisation during this financial year

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Notes to the Housing Revenue Account

1. Housing Revenue Account

The Housing Revenue Account is a record of expenditure on, and income from, the provision of local authority housing, and the form and content of the Account is prescribed by statute. The Housing Revenue Account is "ringfenced" and must be self-supporting. Contributions both to and from the Housing Revenue Account (e.g. from the General Fund) are limited to special circumstances.

2. Housing Stock

The number of dwellings in the Authority's housing stock, as at 31 March 2015 totalled 6,207 properties. The type of properties and the period in which they were built, were as follows:

	31st March 2015	31st March 2014
	Number	Number
Property Type		
Houses	2,752	2,779
Flats	2,921	2,945
Bungalows	530	530
Shared Ownership	4	4
Total Dwellings 31 March	6,207	6,258
Total Dwellings 1st April	6,258	6,361
Sold	(64)	(73)
New Build/Acquisition	13	0
Demolished	0	(30)
Total Dwellings 31 March	6,207	6,258

In accordance with Government guidelines, dwellings have been valued at their "existing use with vacant possession" based upon beacon values and then reduced to reflect "existing use for social housing". The carrying value of HRA non-current assets in the Balance Sheet is as follows:

	31 March 2015	31 March 2014
	£000	£000
Carrying value of non-current assets		
Council dwellings	368,368	328,459
Other land and buildings	9,093	9,012
Vehicles, plant and equipment	299	652
Assets under construction	1,136	1,440
Surplus assets	8,655	8,633
Total HRA non-current assets	387,551	348,196

3. Major Repairs Reserve

The movement on the Major Repairs Reserve during the year ended 31 March 2015 is summarised below:

	2014/15	2013/14
	£000	£000
Balance at 1 April	11,184	8,677
Depreciation	7,286	6,860
Transfer from HRA balance	3,000	4,662
Capital expenditure on HRA Land, Houses and	(10,183)	(9,015)
Balance at 31 March	11,287	11,184

4. Housing Revenue Account Capital Expenditure

	2014/15	2013/14
	£000	£000
Capital investment		
Operational assets	10,672	9,752
	10,672	9,752
Sources of funding		
Capital Receipts	489	221
Major Repairs Reserve	10,183	9,015
Government grants and other contributions	0	516
	10,672	9,752

Revenue Expenditure funded from Capital Under Statute represents items that would be expensed under the Code's general requirements but are covered by statutory definitions of Capital Expenditure.

5. Capital Receipts from Disposal of Land, Houses and Other Property within the Housing Revenue Account

	2014/15	2013/14
	£000	£000
Council dwellings -		
Right to Buy	6,814	6,278
Discounts repaid	0	69
Non-Right to Buy	0	418
Other Receipts -		
Land sales	27	13
Leaseholder Contributions	384	0
Other property sales	122	1,096
Mortgage Property	7	19
	7,354	7,893
Less Pooled (Paid to Central Government)	(741)	(847)
	6.613	7.046

6. Rent Arrears

During 2014/15 total rent arrears decreased by £328,000 (£77,000 decrease 2013/14). A summary of rent arrears and prepayments is shown in the following table:

	2014/15	2013/14
	000£	£000
Current Tenant Arrears	857	1,290
Former Tenant Arrears	730	582
Total Rent Arrears	1,587	1,872
Prepayments	(532)	(489)
Net Rent Arrears	1,055	1,383

7. Provision for Bad Debt and Doubtful Debts

The provision for bad and doubtful debts relating to the Housing Revenue Account is £1,481,000 (£1,665,000 2013/14)

8. Depreciation and Impairment of Non-Current Assets

Notes to the Financial Statements FOR THE YEAR ENDED 31 MARCH 2015

Note 1 - Council Tax

The introduction of Council Tax on 1 April 1993 revised the method of accounting for the Council's Collection Fund. The main features of the arrangements may be summarised as follows:

- a) Revenue Support Grant and amounts for distribution from the NNDR National Poo are paid directly to all Billing and Precepting Authorities and are disclosed in the Income and Expenditure Account
- b) Interest is no longer payable between the General Fund and the Collection Fund on cash-flow deficits/surpluses. All interest is now payable directly to the Genera Fund, as shown on the Income and Expenditure Account
- c) The year-end surplus or deficit on the Collection Fund is to be distributed betweer Billing and Precepting Authorities on the basis of estimates, made in January of each year-end balance. For 2014/15, the amount outstanding in January 2014 ir respect of Council Tax when compared with the provision made by the Council for non-payment, was£1.44m
- d) Under the old Community Charge Collection Fund any surplus or deficits were retained within the fund, however the revised arrangements in (c) above resulted in any such balances being cleared to the relevant authority. For 2014/15, the amount outstanding in January 2014 in respect of Community Charge wher compared with the provision made by the Council for non-payment, was not above the level anticipated and therefore no surplus was declared.

Note 2 - Council Tax Valuation Bands

Most domestic Dwellings (including flats) whether rented or owned, occupied or not, are subject to Council Tax. Each Dwelling is allocated to one of eight bands according to their open market capital value at 1 April 1991.

Valuation Band Range of Values

Α	Up to & including	40,000		
В		40,001	-	52,000
С		52,001	-	68,000
D		68,001	-	88,000
Е		88,001	-	120,000
F		120,001	-	160,000
G		160,001	-	320,000
Н	More Than			320,001

Note 3 - Council Tax Income

The amount of Council Tax payable is calculated by establishing a 'Council Tax Base'. This is the Council's estimated number of chargeable dwellings expressed in relation to those dwellings in Band D. Once this has been determined, the Council Tax payable for each band is established as follows: (The actual amount payable for each property is also subject to discounts where applicable.)

Band	Calculated number of dwellings	Ratio to Band D	Equated number of dwellings	Council Tax Payable
Α	1,343	6/9	895	927.54
В	9,370	7/9	6,247	1,082.13
С	21,954	8/9	14,636	1,236.72
D	12,729	9/9	8,486	1,394.44
Е	4,351	11/9	2,901	1,700.49
F	1,635	13/9	1,090	2,009.67
G	329	15/9	219	2,318.85
Н	8	18/9	5	2,782.62
		· ·	34,479	•

Note 4 - Council Tax Required

The amount of Council Tax required for Band D was calculated on the following basis:

- (i) Preceptor's Council Tax Requirements
- 11,833,218 8,486 1,394.44

(ii) Number of Band D equivalent Dwellings Band D (i divided by ii)

The Council Tax required then forms part of the Income and Expenditure Account as detailed in the following table:

	2014/15	2013/14
	£000	£000
Net Amount	53,564	52,596
Use of Provision for Doubtful Debts	28	(1,006)
Council Tax Surplus	(1,231)	(908)
Council Tax Requirement	52,361	50,682

Note 5 - Non-Domestic Rates

Non-Domestic Rates are organised on a local basis. The Government specifies an amount and subject to the effects of transitional arrangements, local businesses pay rates calculated by multiplying their rateable value by that amount. In 2014/15 the amount was 48.2p (47.1p =2013/14). The small business rate multiplier was 47.1p for 2014/15 (46.2 2013/14). The Council is responsible for collecting rates due from the ratepayers in its area and distributing the amount collected between itself, central government and major preceptors in proportions specified by central government. This is shown in the Comprehensive Income and Expenditure Statement and analysed at Note 11. The total rateable value @ 31 March 2015 was £223,349,724 (31 March 2014 = £219,865,601).

Note 6 - Council Tax Precepts & Demands

The following amounts were paid from the fund:

	2014/15	2013/14
	£000	£000
Slough Borough Council	43,852	42,555
Britwell Parish Council	59	120
Wexham Court Parish Council	55	55
Colnbrook with Poyle Parish Council	93	93
Royal Berkshire Fire Service	2,303	2,186
Thames Valley Police Authority	5,999	5,672
Total	52,361	50,681

FOR THE YEAR ENDED 31 MARCH 2015

AAA FITCH RATING

Highest credit quality - 'AAA' ratings denote the lowest expectation of credit risk. They are assigned only in case of exceptionally strong capacity for timely payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

AA FITCH RATING

Very high credit quality - 'AA' ratings denote a very low expectation of credit risk They indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A FITCH RATING

High credit quality - 'A' ratings denote a low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to changes in circumstances or in economic conditions than is the case for higher ratings.

ACCOUNTING PERIOD

The period of time covered by the accounts, normally a period of twelve months commencing on 1 April. The end of the accounting period is the Balance Sheet date.

ACCRUALS

Sums included in the final accounts to recognise revenue and capital income and expenditure earned or incurred in the financial year, but for which actual payment had not been received or made as at 31 March.

ACTUARIAL GAINS AND LOSSES

For a defined benefit pension scheme, the changes in actuarial surpluses or deficits that arise because:

Events have not coincided with the actuarial assumptions made for the last valuation (experience gains and losses); or The actuarial assumptions have changed

ASSET

An item having value to the Council in monetary terms. Assets are categorised as either current or fixed:

A current asset will be consumed or cease to have material value within the next financial year (e.g. cash and stock);

A fixed asset provides benefits to the Council and to the services it provides for a period of more than one year and may be tangible e.g. a community centre, or intangible, e.g. computer software licences.

AUDIT OF ACCOUNTS

An independent examination of the Council's financial affairs.

BALANCE SHEET

A statement of the recorded assets, liabilities and other balances at the end of the accounting period.

FOR THE YEAR ENDED 31 MARCH 2015

BUDGET

The forecast of net revenue and capital expenditure over the accounting period.

CAPITAL EXPENDITURE

Expenditure on the acquisition of a fixed asset, which will be used in providing services beyond the current accounting period, or expenditure which adds to and not merely maintains the value of an existing fixed asset.

CAPITAL FINANCING

Funds raised to pay for capital expenditure. There are various methods of financing capital expenditure including borrowing, leasing, direct revenue financing, usable capital receipts, capital grants, capital contributions, revenue reserves and earmarked reserves.

CAPITAL PROGRAMME

The capital schemes the Council intends to carry out over a specific period of time

CAPITAL RECEIPT

The proceeds from the disposal of land or other fixed assets. Proportions of capita receipts can be used to finance new capital expenditure, within rules set down by the government but they cannot be used to finance revenue expenditure.

CIPFA

The Chartered Institute of Public Finance and Accountancy

COLLECTION FUND

A separate fund that records the income and expenditure relating to Council Tax and non-domestic rates.

CONSISTENCY

The concept that the accounting treatment of like items within an accounting period and from one period to the next are the same.

CONTINGENT ASSET

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's accounts.

CONTINGENT LIABILITY

A contingent liability is either:

A possible obligation arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's control; or

A present obligation arising from past events where it is not probable that a transfer of economic benefits will be required, or the amount of the obligation cannot be measured with sufficient reliability.

FOR THE YEAR ENDED 31 MARCH 2015

CORPORATE AND DEMOCRATIC CORE

The corporate and democratic core comprises all activities that local authorities engage in specifically because they are elected, multi-purpose authorities. The cost of these activities are thus over and above those which would be incurred by ϵ series of independent single purpose, nominated bodies managing the same services. There is therefore no logical basis for apportioning these costs to services.

CREDITOR

Amount owed by the Council for work done, goods received or services rendered within the accounting period, but for which payment has not been made by the end of that accounting period.

CURRENT SERVICE COST (PENSIONS)

The increase in the present value of a defined benefits pension scheme's liabilities expected to arise from employee service in the current period.

DEBTOR

Amount owed to the Council for works done, goods received or services rendered within the accounting period, but for which payment has not been received by the end of that accounting period.

DEFERRED CHARGES

Expenditure which can be properly deferred (i.e. treated as capital in nature), but which does not result in, or remain matched with, a tangible asset. Examples of deferred charges are grants of a capital nature to voluntary organisations.

DEFINED BENEFIT PENSION SCHEME

Pension schemes in which the benefits received by the participants are independent of the contributions paid and are not directly related to the investments of the scheme.

DEPRECIATION

The measure of the cost of wearing out, consumption or other reduction in the usefu economic life of the Council's fixed assets during the accounting period, whether from use, the passage of time or obsolescence through technical or other changes.

DISCRETIONARY BENEFITS (PENSIONS)

Retirement benefits, which the employer has no legal, contractual or constructive obligation to award and are awarded under the Council's discretionary powers such as the Local Government (Discretionary Payments) Regulations 1996.

EQUITY

The Council's value of total assets less total liabilities.

EVENTS AFTER THE BALANCE SHEET DATE

Events after the Balance Sheet date are those events, favourable or unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue.

EXCEPTIONAL ITEMS

Material items which derive from events or transactions that fall within the ordinary activities of the Council and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.

EXPECTED RETURN ON PENSION ASSETS

For a funded defined benefit scheme, this is the average rate of return, including both income and changes in fair value but net of scheme expenses, which is expected over the remaining life of the related obligation on the actual assets held by the scheme.

FOR THE YEAR ENDED 31 MARCH 2015

EXTRAORDINARY ITEMS

Material items, possessing a high degree of abnormality, which derive from events or transactions that fall outside the ordinary activities of the Council and which are not expected to recur. They do not include exceptional items, nor do they include prior period items merely because they relate to a prior period.

FAIR VALUE

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction less, where applicable, any grants receivable towards the purchase or use of the asset.

FINANCE LEASE

A lease that transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee.

GOING CONCERN

The concept that the Statement of Accounts is prepared on the assumption that the Council will continue in operational existence for the foreseeable future.

GOVERNMENT GRANTS

Grants made by the government towards either revenue or capital expenditure ir return for past or future compliance with certain conditions relating to the activities of the Council. These grants may be specific to a particular scheme or may support the revenue spend of the Council in general.

HOUSING BENEFITS

A system of financial assistance to individuals towards certain housing costs administered by authorities and subsidised by central government.

HOUSING REVENUE ACCOUNT (HRA)

A separate account to the General Fund, which includes the income and expenditure arising from the provision of housing accommodation by the Council

IMPAIRMENT

A reduction in the value of a fixed asset to below its carrying amount on the Balance Sheet.

INCOME AND EXPENDITURE ACCOUNT

The revenue account of the Council that reports the net cost for the year of the functions for which it is responsible and demonstrates how that cost has beer financed from precepts, grants and other income.

INFRASTRUCTURE ASSETS

Fixed assets belonging to the Council that cannot be transferred or sold, on which expenditure is only recoverable by the continued use of the asset created. Examples are highways, footpaths and bridges.

INTANGIBLE ASSETS

An intangible (non-physical) item may be defined as an asset when access to the future economic benefits it represents is controlled by the reporting entity. This Council's intangible assets comprise computer software licences.

INTEREST COST (PENSIONS)

For a defined benefit scheme, the expected increase during the period of the present value of the scheme liabilities because the benefits are one period closer to settlement.

INVESTMENTS (PENSION FUND)

The investments of the Pension Fund will be accounted for in the statements of that fund. However, authorities are also required to disclose, as part of the disclosure requirements relating to retirement benefits, the attributable share of the pensior scheme assets associated with their underlying obligations.

FOR THE YEAR ENDED 31 MARCH 2015

LIABILITY

A liability is where the Council owes payment to an individual or another organisation.

A current liability is an amount which will become payable or could be called in within the next accounting period, e.g. creditors or cash overdrawn. A deferred liability is an amount which by arrangement is payable beyond the next year at some point in the future or to be paid off by an annual sum over a period of time.

LIQUID RESOURCES

Current asset investments that are readily disposable by the Council without disrupting its business and are either:

Readily convertible to known amounts of cash at or close to the carrying amount; or

Traded in an active market

LONG-TERM CONTRACT

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which together constitute a single project), where the time taken to substantially complete the contract is such that the contract activity falls into more than one accounting period.

MATERIALITY

The concept that the Statement of Accounts should include all amounts which, if omitted, or mis-stated, could be expected to lead to a distortion of the financia statements and ultimately mislead a user of the accounts.

MINIMUM REVENUE PROVISION (MRP)

The minimum amount which must be charged to the revenue account each year in order to provide for the repayment of loans and other amounts borrowed by the Council.

NET BOOK VALUE

The amount at which fixed assets are included in the Balance Sheet, i.e. their historical costs or current value less the cumulative amounts provided for depreciation.

NET DEBT

The Council's borrowings less cash and liquid resources.

NON-DISTRIBUTED COSTS

These are overheads for which no user now benefits and as such are not apportioned to services

NATIONAL NON-DOMESTIC RATES (NNDR)

The National Non-Domestic Rate is a levy on businesses, based on a national rate ir the pound set by the government and multiplied by the assessed rateable value of the premises they occupy. It is collected by the Council on behalf of centra government and then redistributed back to support the cost of services.

NON-OPERATIONAL ASSETS

Fixed assets held by the Council but not directly occupied, used or consumed ir the delivery of services. Examples are investment properties, assets under construction or assets surplus to requirements pending sale or redevelopment.

OPERATING LEASE

A lease where the ownership of the fixed asset remains with the lessor.

FOR THE YEAR ENDED 31 MARCH 2015

OPERATIONAL ASSETS

Fixed assets held and occupied, used or consumed by the Council in the pursuit of its strategy and in the direct delivery of those services for which it has either ε statutory or discretionary responsibility.

PAST SERVICE COST (PENSIONS)

For a defined benefit pension scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to retirement benefits.

PENSION SCHEME LIABILITIES

The liabilities of a defined benefit pension scheme for outgoings due after the valuation date. Scheme liabilities measured during the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

PRECEPT

The levy made by precepting authorities by billing authorities, requiring the latter to collect income from Council Tax on their behalf.

PRIOR YEAR ADJUSTMENT

Material adjustments applicable to previous years arising from changes ir accounting polices or from the correction of fundamental errors. This does not include normal recurring corrections or adjustments of accounting estimates made in prior years.

PROVISION

An amount put aside in the accounts for future liabilities or losses which are certain or very likely to occur but the amounts or dates of when they will arise are uncertain

PUBLIC WORKS LOAN BOARD (PWLB)

A Central Government Agency, which provides loans for one year and above to authorities at interest rates only slightly higher than those at which the government can borrow itself.

RATEABLE VALUE

The annual assumed rental of a hereditament, which is used for NNDR purposes.

RELATED PARTIES

There is a detailed definition of related parties in FRS 8. For the Council's purposes related parties are deemed to include the Council's members, the Chief Executive, its Directors and their close family and household members. RELATED PARTY TRANSACTIONS

The Statement Of Recommended Practice requires the disclosure of any materia transactions between the Council and related parties to ensure that stakeholders are aware when these transactions occur and the amount and implications of such.

REMUNERATION

All sums paid to or receivable by an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits. Received other than in cash. Pension contributions payable by the employer are excluded.

RESERVES

The accumulation of surpluses, deficits and appropriations over past years. Reserves of a revenue nature are available and can be spent or earmarked at the discretion of the Council. Some capital reserves such as the fixed asset restatement account cannot be used to meet current expenditure.

RESIDUAL VALUE

The net realisable value of an asset at the end of its useful life.

RETIREMENT BENEFITS

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment.

FOR THE YEAR ENDED 31 MARCH 2015

REVENUE EXPENDITURE

The day-to-day expenses of providing services.

REVENUE SUPPORT GRANT

A grant paid by Central Government to authorities, contributing towards the genera cost of their services.

STOCKS

Items of raw materials and stores an Council has procured and holds in expectatior of future use. Examples are consumable stores, raw materials and products and services in intermediate stages of completion.

TEMPORARY BORROWING

Money borrowed for a period of less than one year.

TRUST FUNDS

Funds administered by the Council for such purposes as prizes, charities, specific projects and on behalf of minors.

USEFUL ECONOMIC LIFE (UEL)

The period over which the Council will derive benefits form the use of a fixed asset
