

S151 officer statement on the robustness of reserves and the robustness of estimates

Section 25 of the Local Government Act 2003 requires the Section 151 Officer (Assistant Director, Finance and Audit) to formally report to Council as part of the tax setting report his view on the minimum level of reserves available to the general fund and on the robustness of estimates used on the budget setting process. The Council is required to take these views into account when setting the Council Tax at its meeting on 23rd February 2016.

Adequacy of Reserves

When assessing the minimum level of reserves required, there are some important considerations. Firstly, the reserve for budget setting purposes is the general fund reserve. This is the Council's reserve which is not allocated to specific risks, policy decisions or under legislative or accounting requirements. The general fund reserve can be spent on any activity and there is no restriction on its deployment.

As a unitary Council, with a number of complex services and transactions, the Council has an inherently higher risk than a number of other local authorities. The Council provides a much wider scope of services compared to a County Council or District Council; each different service comes with a different level of risk. The Council has made policy decisions which have engaged the Council into a wide range of service provision e.g. significant outsourcing of services, PFI arrangements, and the creation of the Slough Urban Renewal ('the LABV'). Some of these mitigate the Council's financial risk whilst other arrangements increase the level of risk.

The Council is also facing a period where demand is increasing in key areas, namely:

- Increased population increases demand on 'universal services' i.e. more bins to collect, more Council Tax bills to issue etc.
- Increased volatility from the retention of business rates
- Savings are increasingly based on commercial income generation opportunities so fluctuate much more – this is especially so in the current year budget with over £3m of additional income through commercial schemes and represents a significant increase in the risk exposure to outside economic conditions
- Increased adult social care pressures due to changes in demography
- Increased risk over the delivery of savings; the savings figures in the MTFs and since 2010 are far higher than in previous years and are over a sustained period through to 2020
- Risk of grants fluctuating during the financial year e.g. Education Services Grant

- The impact of the macro-economic position and the impact on residents and businesses being able to pay for respective fees and charges
- Change in control of Children's Social Care expenditure to the SCST

In light of the above, the proposed minimum level of reserve for the Council should be 5% of the net budget (as defined by Council Tax, retained business rates and non-ring fenced revenue Government grants); plus £2m to allow for current funding volatility. This results in a total of **£7.2m¹**.

¹ Circa 5% of £104m and £2m to cover funding volatility.

Robustness of Estimates

The treatment of inflation and interest rates

The 2016/17 pay award for staff has been included at an average of 1% in line with the Government's pay announcements. Non pay related budgets have been inflated at the contractually committed rate of inflation or where services can demonstrate a requirement to do so to maintain service delivery levels.

Efficiency saving and productivity gains

The budget contains proposals to deliver approximately £10m of savings. The medium term financial strategy includes a four year savings programme to ensure that future revenue budgets remain in financial balance to ensure the council has adequate resources to deliver its Council Strategy outcomes. The savings programme will also help to ensure that Council Tax increases are kept to as low a level as possible and deliver efficient local services. The proposals continue to set high levels of required savings and there are inherent risks to the delivery of a balanced budget at the end of the 2016/17 financial year. Given the year on year reductions in Government funding, the Council's risk profile for savings is increasing as more transformational activity and income generation schemes are brought forward. Though these will endeavour to drive additional income and reduced costs, they are by their very nature more difficult and complex to deliver, and are at greater risk of market conditions.

Budget and Financial management

The level of under spends in recent years is as follows:

- 2011/12 – £1,736k underspend – 1.7% of budget
- 2012/13 - £23k underspend – 0.0% of budget
- 2013/14 - £150k underspend – 0.1% of budget
- 2014/15 - £224k underspend - 0.1% of budget
- 2015/16 - £486k overspend forecast – 0.5% of budget

All relevant reports to Members have their financial effects identified and the Corporate Management Team keep any emerging budget pressures under review during the year. Monthly reports are received by Corporate Management Team and quarterly reports to the Cabinet detail both budgetary and performance indicators. A traffic light system of indicators is used.

The Council has a number of demand led budgets and has historically been able to manage changes to demand to ensure a sound financial standing at the end of the financial year. The revenue budget includes £0.85m for adult social care cost pressures and £2.8m for Children's social care.

Adequacy of insurance and risk management

Strategic risk management is being embedded throughout the Council to ensure that all risks are identified and managed appropriately. The Council's insurance arrangements are a balance of external insurance premiums and internal funds to self insure some areas. As well as an internal risk manager the Council also make use of an external consultant to advise on the level of funds required to underpin those risks not externally insured.

Overall financial standing of the authority

Slough Borough Council borrows money to support the Council's capital Programme. It has calculated its capacity for borrowing within the provisions of the prudential framework and budgeted accordingly. The assumed Council Tax collection rate is 98.4% and this is an achievable if demanding target. Each 1% uncollected amounts to approximately £0.47m and any surplus or deficit on the collection fund is apportioned between the Council and its major precepting bodies the Royal Berkshire Fire and Rescue Authority, and the Office of the Police and Crime Commissioner (OPCC) for Thames Valley.

Maintaining balances

The balance of the in year budgetary position against the proposed budget will be managed against the general reserve. As and when budget pressures emerge then it is first for the service to contain, then the directorate and finally a corporate issue. If there is still a pressure at year end then General Reserves will reduce and will need to be replenished up to a level in future years as noted above. This helps ensure that the Council is in a position to maintain its service provision without drastic actions.

If an event occurs that is so serious it depletes the Council reserves to below the limit set, then the Council will take appropriate measures to raise general fund reserves to the recommended level in as soon a timeframe as possible without undermining service provision.
