A strong submission for QM with *lots* of supporting evidence: thank you for making the moderation process so easy!

Weaknesses in systems and processes have been systematically addressed through joint action planning and change implementation programmes

A very solid base from which to push for Quality Lead status?

**Based on evidence submitted, and supporting evidence supplied, QUALITY MARK STATUS has been awarded, which will run for three years from 1st April 2018 until 31st March 2021 before re-designation is necessary... or is superseded by a Quality Lead submission.**
