

SLOUGH BOROUGH COUNCIL

REPORT TO: Slough Wellbeing Board **DATE:** 26th March 2019

CONTACT OFFICER: Alan Sinclair – Director of Adults and Communities
(For all Enquiries) (01753) 875752

WARD(S): All

PART I **FOR COMMENT & CONSIDERATION**

FRIMLEY HEALTH AND CARE INTEGRATED CARE SYSTEM UPDATE

1. Purpose of Report

1.1 This report provides the Slough Wellbeing Board with an update on progress being made to deliver the Frimley Health and Care Integrated Care System (ICS).

2. Recommendation(s)/Proposed Action

2.1 The Board is recommended to note the report and the progress being made in developing the ICS and comment on any aspect of the plan.

3. The Slough Joint Wellbeing Strategy, the JSNA and the Five Year Plan

3a. Slough Joint Wellbeing Strategy Priorities

The priorities in the ICS reflect the need to improve the health and wellbeing of the population. The ICS will focus on those priorities that can be delivered across the system and local areas will continue to address their own local priorities. Slough's Joint Strategic Needs Assessment (JSNA) has informed the work of the ICS.

The ICS supports the delivery of several of the current Slough Wellbeing Board's strategic priorities including:

- Protecting vulnerable children and young people
- Improving healthy life expectancy
- Improving mental health and wellbeing

3b. Five Year Plan Outcomes

The ICS will also support the delivery of the following Five Year Plan outcomes:

- Slough children will grow up to be happy, healthy and successful
- Our people will be healthier and manage their own care needs

4. Other Implications

(a) Financial - One of the aims of the ICS is to bring financial balance to the Frimley footprint by 2020 – across health and social care. There is a significant financial pressure facing all parts of the system and the plan will address how these

pressures will be managed. Any future investment from the NHS in local systems will come via the ICS process.

(b) Risk Management - There are no recommendations arising from this report.

(c) Human Rights Act and Other Legal Implications - No legal implications have been identified at this point.

(d) Equalities Impact Assessment - These are being undertaken by service deliverers as ICS programmes become operative.

5. Summary

This report provides the Board with:

- a) An update on progress being made to deliver the ICS;*
- b) An opportunity to ask questions about and/or comment on any aspect of the Plan; and*
- c) Consider next steps.*

6. Supporting Information

6.1 The Frimley footprint has been in operation since October 2016. This has seen the system change from the initial Sustainability and Transformation Programme to an ICS, which became operational in 2018. This involves all health and care providers and commissioners, including Slough Borough Council.

6.2 Given the importance of the matter to healthcare provision in Slough and across the region, this has been a regular agenda item for the Slough Wellbeing Board.

6.3 An update on the Development of the System Operating Plan for 2019/20 is attached at Appendix A which covers:

- February submission of the 2019-20 Operational Plan
- Indicative Local Timeline
- NHS Long Term Plan & Engagement

7. Comments of Other Committees

7.1 The ICS has also been a regular agenda item for the Health Scrutiny Panel. The last meeting to receive an update on progress was held on 21st November 2018.

8. Conclusion

8.1 Given the relative newness of the ICS, Slough Wellbeing Board may wish to use this agenda item to discuss how to contribute to the ongoing consultation. They may also wish to consider how to add value to the implementation of the ICS throughout 2019 – 20 and how they can best contribute to its progress.
