F&A 27	Failure to ensure financial sustainability.	Neil Wilcox	Description The revenue support grant is declining whilst the population in the Borough is growing. In addition there is an increasing demand for the Council's Services. Efficiency savings still need to be made to reduce expenditure, whilst the financial sustainability of the Council in the longer term is reliant on increased levels of income being generated by attracting new businesses to the area. There is limited ability to increase income due to uncertainties over BREXIT and the impact this may have on the Council's ability to raise income. Gov 2	Ensuring the Council's internal control environment is fit for future.	Neil Wilcox	Description Continued changes in personnel / vacancy / service change have resulted in loss of corporate memory and deterioration in the control framework including adherence with policy, systems, process and procedures. This can result in decisions being made without a firm policy footing or decisions being made often late or without sufficient due process etc. This is applicable to both officers and members. The Council is therefore at greater risk of being challenged or making a poor decision with sub optimal outcomes.
