Slough – Immunisations Local Action Plan 2019 – 2021

Objectives over next 18 months i.e. to end of Apr 2021:

- 1) Increase overall immunisation uptake and coverage for Slough residents.
- 2) Reduce inequalities across Slough's population groups.

This is a working local action plan (LAP) to improve uptake of immunisations and screening in Slough and under regular review and update. As a result, please check the date of the version you have.

Immunisation Conference – Action ideas: This version of the action plan reflects various ideas captured from the conference that have been shortlisted by the Imms Partnership.

Immunisations
