Petition - Yellow Lines On Denbigh Close

The access road to Denbigh Close is only wide enough for one vehicle and at the moment there are not instructions or yellow lines, so cars park there blocking the road. If an emergency was to arise it would be difficult for entry by a fire truck.

Also the bins keep not being emptied several complaints have been made. When the bins are missed rubbish mounts and ends up all over the road leading to the Council having to clean up. And rats and foxes dragging rubbish all over the area. Also my son has special needs and minibus has access issues.

This petition was received on 14th September, 2020.

This petition was passed to the Team Leader, Parking Services on 14th September, 2020.

This petition was responded to the Neighbourhood Manager, Housing (People) Services on 15th October, 2020.

Council Response

You very kindly organised a recent petition requesting a parking enforcement scheme to be introduced on Denbigh Close.

As the land in question is owned by the Housing Department it is, as far as parking enforcement is concerned, considered as private land so we need specific agreements in place to set up any scheme.

I have discussed this with my colleagues in Parking and am pleased to say that this scheme will be considered for formal consultation and design. However, my colleagues have advised me that due to the long list of other projects already being considered there could be a significant delay in starting this project.

This is the case for a number of other roads on Housing land and we are currently investigating if it is possible to introduce a short term, interim solution using a private parking contractor. There are some draw-backs to having a private enforcement scheme in place so we need to make sure we don't fix one problem only to create another. Once we have more information about whether this is possible we will update you further.
