Subject: RE: Street Trading Consent

Hi Tola,

RE: Bowles House, Blackthorne Road, Slough

Thank you for your email. Planning Enforcement would like to raise an objection to the granting of a license at this location. Following a site inspection, I noted that the catering van does not benefit from planning permission, it is completely different in terms of size and scale. Moreso, part of the land was granted permission for the storage of materials, however, what you have on site is an unauthorised commercial activity where they appear to be making concrete as well unauthorised stationing of site office/ containers and apparatus/ mixing plant.

Please note, that the planning enforcement function is minded to be taking formal enforcement action against the unauthorised commercial activity taking place on the land.

Best regards,

Ammad Malik

Subject: Street Trading Consent

Hi guys,

Today is the last day for objections to the Street Trading consent that I sent to you.

If you do wish to object, please do so by the end of today. As mentioned, the Licensing Sub-Committee are obliged to grant the Consent, if there are no objections, or if they feel that the objections received, are not sufficient enough for them not to grant the Consent.

Kind Regards

Tola Idowu

Senior Licensing Officer
