Hi Tola

I have visited the site and my finding are as follows from a network management duty including Highways and parking :

The trailer is already on site

The site is shared with others and set on unmade ground with other vehicles parked everywhere,

The block plan submitted does not reflect what is on site. The parking marked is not available on site, in fact no parking is allocated.

The location of this site is at Blackthorn Road a busy industrial road, with HGVs driving in and out, as no parking is available it would force customers to park on the road which to is not suitable and would cause safety issues.

So for the reasons above I object to this application being granted.
