Precis					

I object to this proposal due to
Increase in water on the road there are already pooling and flooding issues due to insufficient drainage
Increase in Traffic that this would cause
Environmental damage
Noise from generators
possible vibration
would be unsightly to look at
Electricity and water would be taken from the local grid
potentially affecting supplies to residents and other existing businesses
Valuable greenbelt being built on affecting local wildlife
Would probably cause even more unknown potentially predatory men walking around frightening our women and children in the village who have now recently been unable to now go outside alone
