Subject: Slough - DC Data

Further to our call, provided below are DC Bite figures for total live supply and new live supply in the Slough AZ.

Slough AZ – DC cumulative live supply (Source: DC Byte)		
	Total Live Supply (MW)	New Live supply (MW)
2017	115	
2018	132	17
2019	162	30
2020	177	15
2021	221	44
2022	290	68
2023	299	9
2024	369	70
2025 (so far)	416	47

The wider ‘London’ market currently stands at 1,478 MW live supply (source: DC Byte). The ‘London’ market is much broader than it sounds, covering data centres across most of the south of England and part of south Wales (including Cardiff which is a significant submarket). See the below map extract from DC Byte which illustrates the geography of the 1,478 MW live supply.

I trust this helps.

Kind regards

Associate Director, Planning Development
